Mr. John E. Wilkie, Chief of the United States Secret Service, reports a new counterfeit as follows:

New Counterfeit $10 (Buffalo) United States Note

[illegible] face plate No. 464; back plate indistinct, but probably [illegible] Charles H. Treat.

Mr. John E. Wilkie, Chief of the United States Secret Service, reports a new counterfeit as follows:

New Counterfeit $5 Silver Certificate

Series of 1889; check letter A; face plate No. 1044; back plate No. 682; W. T. Vernon, Register of the Treasury; Charles H. Treat, Treasurer of the United States; portrait of Onepapa; Treasury number D21771369.

This counterfeit is a rough photo-mechanical production printed on two pieces of paper, no attempt being made to imitate the fiber paper of the genuine. The printing is very heavy and blotchy, the lathe work and ruling being broken and disconnected. The blue of the "V" and the seal is much darker than the genuine. The green on back of note is pale. Credit is due to Mr. William Williams, of the Irving National Bank, of New York, for the discovery of this counterfeit.

New Counterfeit [illegible]

Series of 1882; check letter G; face and back plate numbers indistinct; charter number 5105; bank number 6945; Treasury number 79345; J. W. Lyons, Register; Ellis H. Roberts, Treasurer. This counterfeit is on the Wells Fargo Nevada National Bank of San Francisco, Cal., and is a very poor photographic production, printed on heavy bond paper, with no silk fiber. The Treasury numbers have been traced over with red ink. The back of the note is better than the face, being a fair imitation of the genuine, except the coloring around the charter number, which is a muddy green. This note should not deceive the ordinary handler of money.

Mr. John E. Wilkie, Chief of the United States Secret Service, reports a new counterfeit as follows:

New Counterfeit $10 (Buffalo) United States Note

Series of 1901; check letter C; face plate No. 464; back plate indistinct, but probably No. 188; serial No. 4678111; W. T. Vernon, Register of the Treasury; Charles H. Treat, Treasurer of the United States; portraits of Lewis and Clark.

This counterfeit, which made its appearance in New York City, and was detected at the National Park Bank by Charles Richmond, is printed on two pieces of paper, between which long pieces of very fine silk threads have been distributed. While the general appearance of the note is deceptive, the lathe work and ruling are very crude and broken. The denomination design and the seal are of very good color, but the Treasury numbers are very heavy and of a lighter color than the genuine. The green color of the back of note is good, but the lathe work and ruling are crude and broken as on the face of the note. The note should not deceive the expert handler of money.

Mr. John E. Wilkie, Chief of the United States Secret Service, reports a new counterfeit as follows:

New Counterfeit $10 National Bank Note.

Series of 1882; check letter G; face and back plate numbers indistinct; charter number 5105; bank number 6945; Treasury number 79345; J. W. Lyons, Register; Ellis H. Roberts, Treasurer. This counterfeit is on the Wells Fargo Nevada National Bank of San Francisco, Cal., and is a very poor photographic production, printed on heavy bond paper, with no silk fiber. The Treasury numbers have been traced over with red ink. The back of the note is better than the face, being a fair imitation of the genuine, except the coloring around the charter number, which is a muddy green. This note should not deceive the ordinary handler of money.

Mr. John E. Wilkie, Chief of the United States Secret Service, reports a new counterfeit as follows:

New Counterfeit $10 (Buffalo) United States Note

SERIES OF 1901; CHECK LETTER A; FACE PLATE NO. 461; BACK PLATE NO. 201; SERIAL NO. B4629945.

W. T. Vernon, Register of the Treasury; Charles H. Treat, Treasurer of the United States; portraits of Lewis and Clark. This counterfeit, which made its appearance in New York City, and was detected at the National Park Bank by Charles Richmond, is a photo-mechanical production on two pieces of rather stiff paper, between which red and blue silk fiber has been scattered. Both the picture of the buffalo and the portraits of Clark and Lewis are defective and in the masses of shadow lose detail. The denominational design, the sea and numbering are a darker red than the genuine. The back is a dark blue-green. This note is evidently made by the same persons who are responsible for the $10 United States note described in our circular letter No. 251, dated November 13, 1906. As with that note it may be considered as deceptive when being handled alone by persons unfamiliar with money, but the texture of the paper and the color of the back will attract the attention of an expert.

Counterfeit $5 (Indian Head) Silver Certificate

Photo-mechanical process. Series 1899; check-letter D; W. T. Vernon, Register; Charles H. Treat, Treasurer; no plate number front or back; portrait of Indian well executed; numbering well done, but figures slightly thinner and a lighter blue than genuine; seal and large "V" lighter shade of blue than genuine and slightly blurred; paper thick and greasy; fibre well imitated by ed and blue ink marks. Credit is due Mr. Robert L. Jones, teller of the Lincoln Trust Co., Fifth Avenue, New York, for the detection of this counterfeit.

Mr. John E. Wilkie, Chief of the Secret Service, describes a new counterfeit as follows:

New Counterfeit $5 Silver Certificate

SERIES 1899; CHECK LETTER D; FACE PLATE NO. 930.

Portrait of Indian Chief Onepapa; Lyons, Register; Treat, Treasurer; serial number B27140444. This is a half-tone production which should deceive no one familiar with money. Several thousand of these notes—faces and backs printed separately on thin bond paper—were picked up in the East River, New York City, on September 21. A few of the faces and backs were pasted together by the finders and passed on careless persons, but there can be no general circulation of such a poor counterfeit. The plates for these notes were found in the box with them.

New Counterfeit $5 Canadian Note

THE QUEBEC BANK, QUEBEC—LETTER H.

This very poor $5 counterfeit is on the Quebec Bank, Quebec. It is dated 2nd July, 1901, is of letter H, and has blue numbers. The large center vignette of the lion, etc., all the lathe work of the counters "5," and, in fact, all the work on every part of the note, is so coarse and poor, especially on the face of the note, that it needs no special description. It is a poor wood cut, and not likely to deceive.

The Standard of Value

Following is the seventh of a series of articles on the money of the United States under the above heading:

NO. 7.

MONETARY SYSTEM OF THE UNITED STATES.

In 1786 the Congress of the Confederation chose as the monetary unit of the United States the dollar of 375.64 grains of pure silver. This unit had its origin in the Spanish piaster or milled dollar, which constituted the basis of the metallic circulation of the English colonies in America. It was never coined, there being at that time no mint in the United States.

The act of April 2, 1792, established the first monetary system of the United States. The bases of the system were: The gold dollar or unit, containing 24.75 grains of pure gold, and stamped in pieces of $10, $5, and $2½, denominated, respectively, eagles, half eagles, and quarter eagles; the silver dollar or unit, containing 371.25 grains of pure silver. A mint was established. The coinage was unlimited, and there was no mint charge. The ratio of gold to silver in coinage was 1 to 15. Both gold and silver were legal tender. The standard was double.

The act of 1792 undervalued gold, which was therefore exported. The act of June 28, 1834, was passed to remedy this, by changing the mint ratio between the metals to 1 to 16.00p. This latter act fixed the weight of the gold dollar at 25.8 grains, but lowered the fineness from 0.916 2-3 to 0.899225. The fine weight of the gold dollar was thus reduced to 23.2 grains. The act of 1834 undervalued silver, as that of 1792 had undervalued gold, and silver was attracted to Europe by the more favorable ratio of 1 to 15½. The act of January 18, 1837, was passed to make the fineness of the gold and silver coins uniform. The legal weight of the gold dollar was fixed at 25.8 grains and its fine weight at 23.22 grains. The fineness was therefore changed by this act to 0.900 and the ratio to 1 to 15.988 plus.

Silver continued to be exported. The act of February 21, 1853, reduced the weight of the silver coins of a denomination less than $1, which the acts of 1792 and 1837 had made exactly proportional to the weight of the silver dollar, and provided that they should be legal tender to the amount of only $5. Under the acts of 1792 and 1837 they had been full legal tender. By the act of 1853 the legal weight of the half dollar was reduced to 192 grains and that of the other fractions of a dollar in proportion. The coinage of the fractional parts of the dollar was reserved to the Government.

The act of February 12, 1873, provided that the unit of value of the United States should be the gold dollar of the standard weight of 25.8 grains, and that there should be coined besides the following gold coins: A quarter eagle, or 2½-dollar piece; a 3-dollar piece; a half eagle, or 5-dollar piece; an eagle,

or 10-dollar piece, and a double eagle, or 20-dollar piece, all of a standard weight proportional to that of the dollar piece. These coins were made legal tender in all payments at their nominal value when not below the standard weight and limit of tolerance provided in the act for the single piece, and when reduced in weight they should be legal tender at a valuation in proportion to their actual weight. The silver coins provided for by the act were a trade dollar; a half dollar, or 50-cent piece; a quarter dollar, and a 10-cent piece; the weight of the trade dollar to be 420 grains troy; the half dollar 12½ grams; the quarter dollar and the dime, respectively, one-half and one-fifth of the weight of the half dollar. These silver coins were made legal tender at their nominal value for any amount not exceeding $5 in any one payment. The charge for converting standard gold bullion into coin was fixed at one-fifth of 1 per cent. Owners of silver bullion were allowed to deposit it at any mint of the United States, to be formed into bars or into trade dollars, and no deposit of silver for other coinage was to be received.

Section II of the joint resolution of July 22, 1876, recited that the trade dollar should not thereafter be legal tender, and that the Secretary of the Treasury should be authorized to limit the coinage of the same to an amount sufficient to meet the export demand for it. The act of February 19, 1887, retired the trade dollar and prohibited its coinage. That of September 26, 1890, discontinued the coinage of the 1-dollar and 3-dollar gold pieces.

The act of February 28, 1878, directed the coinage of silver dollars of the weight of 412½ grains troy, of standard silver, as provided in the act of January 18, 1837, and that such coins, with all standard silver dollars theretofore coined, should be legal tender at their nominal value for all debts and dues, public and private, except where otherwise expressly stipulated in the contract.

The Secretary of the Treasury was authorized and directed by the first section of the act to purchase from time to time silver bullion at the market price thereof, not less than $2,000,000 worth nor more than $4,000,000 worth per month, and to cause the same to be coined monthly, as fast as purchased, into such dollars. A subsequent act, that of July 14, 1890, enacted that the Secretary of the Treasury should purchase silver bullion to the aggregate amount of 4,500,000 ounces, or so much thereof as might be offered, each month, at the market price thereof, not exceeding $1 for 371.25 grains of pure silver, and to issue in payment thereof Treasury notes of the United States, such notes to be redeemable by the Government, on demand, in coin, and to be legal tender in payment of all debts, public and private, except where otherwise expressly stipulated in the contract. The act directed the Secretary of the Treasury to coin each month 2,000,000 ounces of the silver bullion purchased under the provisions of the act into standard silver dollars until the 1st day of July, 1891, and thereafter as much as might be necessary to provide for the redemption of the Treasury notes issued under the act. The purchasing clause of the act of July 14, 1890, was repealed by the act of November 1, 1893.

The act of June 9, 1879, made the subsidiary silver coins of the United States legal tender to the amount of $10. The minor coins are legal tender to the amount of 25 cents.

Annual Report of the Secretary of the Treasury

In his annual report to Congress, George B. Cortelyou, Secretary of the Treasury, reviews the currency stringency and concludes that "the remarkably sound and prosperous condition of the country would seem to warrant the belief that the strain will leave behind no extensive business depression.

"It is said that many of our people have hoarded money. This is undoubtedly true," he says, "but so have many of the banks. We hear little, however, of the untold numbers of patriotic citizens who co-operated with national banks, savings banks, trust companies, and other institutions to support credit and restore confidence.

"The Secretary of the Treasury is given wide discretion in many matters wherein he is rarely called upon to exercise it, and little, if any, in others where it is needed daily, particularly as to our currency. In times of emergency his hands are virtually tied. If, in such periods of stress, in an effort to avert calamity and serve the interests of all the people, he is obliged to resort to unusual measures, criticism is unfortunately in many instances directed not to the inadequacy of the system, but solely to the effort to give relief, even though it be successful in accomplishing that purpose. It should not be forgotten that he has to deal with the practical rather than the theoretical side of the currency question.

"The failure of the adherents of the various suggested plans of currency reform to co-operate or to agree upon a practical measure would hardly appear to be a sufficient reason for holding him responsible for their indecision and inaction. The laws under which he administers his office should be made to meet the daily needs of the people, and his duties, sufficiently onerous as they are should not be made more burdensome by restrictions which leave him with the responsibility but with no adequate means at his disposal to meet it.

"What has happened not only this year, but many times before, should serve as an admonition to enact wise laws for the prevention in the future of disasters due in part at least to the imperfect organization of our monetary system. If no action is thought advisable at this time fully to meet this need, I deem it important that something be done as speedily as may be consistent with thorough consideration to provide under Government guaranty a greater elasticity to the currency—something which shall be automatic in its operation and which shall tend to equalize rates of interest not only in different sections of the country but at different periods of the year.

"Provisions should be made either for such elasticity without the necessity of intervention on the part of the Secretary of the Treasury, or he should be granted the authority to supply it by properly safeguarded measures. I believe that simplicity of plan and promptness of action are what the people need and will demand. What particular form this proposed legislation should take must be left to the action of the Congress. I have no pride of opinion

as to the method, but I have the deepest concern that the result shall b adequately beneficial.

"The only specific recommendation I would make at present is that it b given prompt attention, and that it be not laid aside until some definite mean of relief shall have been enacted into law."

The Secretary calls attention to the fact that under the law the amour of national bank circulation which may be retired each month is $9,000,000 "Owing to the currency stringency which has existed for the past two months, he continues, "the National banks have taken out circulation in large amount (from Oct. 1 to Nov. 20, $38,546,820). It is not difficult to foresee that a a period not very remote these banks will not only be in a position to retire large amount of this circulation, but should be encouraged to do so. It i therefore recommended and urged that the act referred to be further amended and limitation upon such retirement of circulation be left within the discretion of the Secretary of the Treasury."

After reviewing the law governing the bank reserve, the Secretary says: "It might be regarded as worth while to consider the effect of amending the laws so that the country might be divided into geographical or commercia sections, with provision for the retention within each section of a larger proportion of the bank reserves required to be held against deposits in the National banks of such section. The result of this would be, taking present conditions, that the banks in the three central reserve cities (New York, Chicago and St. Louis) would lose a considerable amount, and this amount would be transferred to banks in the reserve cities located in the different sections and would necessarily be held by them as cash.

"This addition to the available and actual cash in banks outside of the central reserve cities would constitute an element of strength, which in times of stress might aid materially in diminishing the violence of financial disturbances. Such a provision of law as this would not affect in any way the depositing by National banks of their unemployed capital outside of their reserves, wherever they could best use it."

The report shows that on Nov. 14 last the Government had on deposit in National banks throughout the country $226,836,237.04, every State and Territory sharing the deposits.

The Government's receipts during the fiscal year ended June 30 last were $846,725,339.62, and the expenditures $762,488,753.32, leaving a surplus of $84,236,586.30. For the current fiscal year the estimates are $844,025,581.10 of receipts and $802,025,581.10 of expenditures, leaving a surplus of $42,000,000.

Reporting the greatest customs receipts for the year in the history of the country ($333,230,126), Secretary Cortelyou says:

"There is need of legislation that will give to the Secretary of the Treasury such power as will enable him to remedy mistakes made by the importer whose transaction is in good faith and who has no intent to evade the law or defraud the revenue. The existing law and regulations fall harshly and with injustice upon the occasional individual importer."

A Central Bank

After commenting on the recent panic, Comptroller of the Currency William B. Ridgely, in regard to remedial or preventive measures, says:

"The conditions which led to the panic were not due to the failure of a few individual banks. They were not due to the lack of confidence of the people in the banks, but more to a lack of confidence of the banks in themselves and their reserves. Banks have been fearful that the reserve system would break down, and in consequence it has broken down, and the reserve deposits have been only partially available. They were also fearful that not sufficient currency could be supplied to meet the demand, and as they all made the demand at once there has not been sufficient currency. The result has been a currency famine.

"The remedy for this state of affairs is to improve the reserve system so that the reserve deposits of the banks can be kept in a bank where they are surely and certainly available. We must impart to our currency system some element of elasticity, so that when there comes a sudden demand for currency it can be supplied in bank notes without depleting the supply of reserve money.

"These two most desirable changes can be best accomplished—in fact, they can only be satisfactorily accomplished—through the establishment by the Government of a central bank of issue and reserve. This is the system which has been adopted and found to work most satisfactorily in the great commercial countries of Europe, and is the one that gives the surest promise of satisfactory operation in this country. Such a bank would not only solve the two great problems of our banking system, but it would also provide the machinery for conducting the Treasury operations in their relations to the banks with the least disturbance.

"The chief weakness of our present national banking system is the provision in regard to reserve deposits, which piles reserve on reserve, in reserve cities and central reserve cities, without requiring a sufficient amount of actual cash reserve on hand. As we have seen in the present crisis, when a real emergency arises these reserves are not reserves at all, because they may in a day become unavailable.

"It will be an improvement to add to the proportion of reserve to be held in cash by the country banks and the reserve city banks, but the proper solution of the difficulty is to increase the amount to be held in cash by all the banks and require all the reserve deposits to be kept with a central bank organized for that purpose. The increase in cash reserves from 6 to 10 or even 15 per cent. in the country banks would not help a bank very much when it had any large demand for its deposits. What such a bank needs is a safe reserve in cash and a further reserve with a bank where it is surely available at any time in currency. This would be the case with reserve deposits in a central bank. Further than this, the depositing bank could be sure that at any time as long as it was solvent it could go to the central bank and get any amount of cash needed on the notes of its customers or other good security. With such a bank to depend on, no solvent bank need ever have any fear of its ability to meet all demands.

"The only way in which bank deposit credits can be properly protected from sudden and unexpected calls, when all may be involved at the same time, is by a system of note credits which can be at any time immediately exchanged for the deposit credits. They are essentially the same thing, and should be daily and hourly, if necessary, convertible from one to the other, at the option of the creditor who is the depositor or note holder. The bank of issue should be required, and must in self-defense keep the same reserves against notes as against deposits. If this is done, there is no expansion or inflation when a note is paid out to a depositor and no contraction when a note is returned to the bank for deposit. With a given amount of reserve money, a given total of deposits and notes can be maintained, and it makes no difference to the bank or any one else but the customer, who uses either at his own option, whether the deposit remains in the bank as a credit to be checked against or is taken away in the shape of a circulating note. The only thing is to make the note, from the circumstances and conditions of its issue, perfectly secure to the holder, which can be done with absolute safety in a credit note."

PLEAS FOR A CENTRAL BANK.

Pleas for the establishment of a great central bank in the United States, as the only safeguard against financial panics, were made at Philadelphia on the evening of December 9 by New York bankers before the American Academy of Political and Social Science. William A. Nash, Chairman of the New York Clearing House and President of the Corn Exchange Bank, said:

"Expansion of credit and the issue of currency can best be done by some central responsible power and not by a series of small powers scattered all over the country. An asset currency authorized on a forty per cent. or any per cent. basis and intrusted to five thousand banks all over the country will surely result in a cataclysm of disaster, unparalleled in the history of the country. On the other hand, if we organize in permanent form the Clearing House loan certificate, now issued so fitfully and at a time when a crisis is already upon us, we will provide the country in advance with a remedy. But how shall we get this permanent form? To answer this we come up against the most venerable and senseless prejudice that obstructs the National well-being, the dread of a great central bank. We must kill this bugaboo and exorcise this ghost.

"But such a bank must be organized properly or it will never gain public confidence. The Government must be represented in it, but the dominant power must reside in a board of directors to which the most eminent bankers and business men shall be chosen. Let the Clearing Houses of the great central reserve cities nominate those directors, and you will have a governing body as influential and as respected as the Supreme Court of the United States. Give us in good faith such a central bank with such management and with such functions as the Clearing Houses all over the country have to-day, and you will put us on a par with England and France and Germany with their great benign National banks."

Isaac N. Seligman said: "There is no doubt in my mind that if we had a modified central banking system the forced closing of the Knickerbocker Trust Company of New York could have been avoided, as it would readily

have hypothecated on the first day of its run $25,000,000 or more of its good securities with the central bank, and the heedless run on other trust companies would have been prevented. Until we have a stable and elastic currency system we will be constantly subjected from time to time to acute and humiliating financial conditions like those which now confront us. There is truth in the statement of Lord Rothschild when he characterized this country as financially uncivilized in its banking business. The spectacle presented to-day by our currency to the civilized banking community of the world is simply shameful. The time has now come when we should be guided by such foreign systems as have been working satisfactorily for centuries, and which in times of panics and stress have fully met all expectations and conditions. I refer to some central banking system."

Jacob H. Schiff said: "If we are not careful we shall, before long, find ourselves face to face with so large a volume of paper money that gold will inevitably be driven out. There is needed a central authority to properly control and determine issuance of any circulating medium, based upon assets. Such a controlling central authority should and can best be constituted by the banks themselves. The one lesson we should learn from recent experience is that the issuing of Clearing House certificates in the different bank centres, while no doubt it helped locally, has also worked considerable harm. It has broken down domestic exchanges and has paralyzed to a large extent the business of the country."

NEW YORK BANKERS URGE A CENTRAL BANK.

Charles Elliott Warren, President of the New York State Bankers' Association, addressed twenty-two members of Group Six of the association, which met in annual convention December 10 in the Hotel Manhattan, New York. Mr. Warren spoke of the needs of a central bank in the country, and of legislation to prevent a recurrence of the situation that confronted the country recently. He paid a high tribute to those financiers who had mastered the situation.

Colonel C. E. Farnsworth, President-elect of the association, showed the benefits to be derived from a central bank, and said there was a wide diversity of opinion in the West as to the advisability of one.

Wilbur F. Hendix, of Rye, spoke in favor of a Clearing House for country banks. He also favored a central bank. A resolution of thanks to Messrs. Morgan, Stillman and Secretary Cortelyou, for their great service in saving the banks, was introduced by William Schikle, of Poughkeepsie, and adopted. The following officers were elected:

Chairman, S. Wood Cornell, of Pleasantville, N. Y.; Secretary and Treasurer, John D. Judson, of Rhinebeck. Daniel Hopping, of Mount Vernon; C. C. Townsend, of Middletown; Samuel Bell, of Larchmont, and W. F. Haight, of Millbrook, were named as the Executive Committee. Lake Mahopac was selected for the next meeting, which will be held August 8, 1908.

DISCARDING CENTRAL BANK AS UNNECESSARY, CHAIRMAN FOWLER OUTLINES FINANCIAL REMEDY.

Charles N. Fowler, of Elizabeth, N. J., Chairman of the House Committee on Banking and Currency, speaking on the evening of December 10 at the

banquet of the Illinois Manufacturers' Association at Chicago, Ill., said:

"A great central bank is, in my opinion, a political impossibility at present. I do not regard a great central bank as essential to a scientific, sound and wise banking and currency system for the United States, provided we can unify and co-ordinate our banking interests, bring them substantially into one system which will secure universal co-operation and the strength of a combination of our entire banking capital, and, even with a central bank, the same co-ordination must be effected.

"Our reserve must be all of the same character, gold or its equivalent, because gold is our standard of value. The practice, I will not say principle, of finance and currency now in operation in this country is costing the American people at least $150,000,000 annually, in addition to the frightful devastation of values incident to such a currency panic as the present, which is liable to occur at any time if some significant failure should precipitate it. The cost to the people of $150,000,000 arises from the fact that the use of all the capital represented by the bonds deposited to secure our present bank notes is lost because they are wholly unnecessary, and in their present use and relation are an unmitigated curse. There is in the pockets of the people $1,250,000,000 of reserve money, $1,000,000 of which at least should be exchanged for current credit or credit currency. If any other business in the world, except our politically managed, were involved, this waste of $150,000,000 annually would be stopped at once.

"Who pays for this waste of capital? American Labor. Upon labor rests the entire cost of the banking business, which is a necessary evil incident to the production, transportation and sale or disposition of $25,000,000,000 worth of product annually. A law should be passed giving to the National banks the right of exercising in the respective States where located all the powers of executors, administrators, guardians and trustees. Unless this step is taken the advantages now enjoyed by the trust companies will gradually but inevitably compel the National banks to surrender their charters for trust company charters; for if a trust company is required to carry only one-fifth or one-half the reserve of a National bank, it can afford to pay a much higher rate of interest upon deposits and eventually undermine the National banks.

"The right should be given to National banks to issue an amount of credit currency equal at least to their capital. No civilized country now has a bond-secured currency such as we have; and no civilized country of consequence ever did have such a currency except one, and that is Japan, who copied it from us only to repudiate and discard it in favor of a credit currency."

United States Treasurer Treat advocated the gradual retirement of greenbacks, and Comptroller Ridgely pointed out the causes of the recent financial crisis.

The proposed central bank, it is believed, would result in certain and permanent relief. The plan provides for a bank limited chiefly to transactions with the Clearing Houses of the various cities. It would deposit funds with Clearing Houses and National banks against United States bonds and other approved security, as well as commercial paper and bankers' bills with proper margins.

The new branch of the Bank of Toronto, at 205 Yonge street, is open and is under the management of Mr. F. L. Coulson, until recently manager of the branch at London East, Ont.

The Bank of Montreal has opened a branch at Charlottetown, P. E. I., under the management of Mr. A. M. Peters, formerly of the Birchy Cove, Newfoundland, branch, with Mr. R. A. Thompson, previously of New York agency, as accountant. A sub-agency to the Toronto branch has also been opened at the corner of Dundas Street and Lansdowne Avenue, and is known as Dundas Street Branch, Toronto. Mr. G. G. Adam will be in temporary charge of the office.

At the annual meeting of the Royal Trust Company at the company's head office at Montreal, a very successful year was reported. All the directors were re-elected, as follows: Lord Strathcona and Mount Royal, president; Hon. Sir George Drummond, K. C., M. G., vice-president. Directors: Messrs. R. B. Angus, E. S. Clouston, E. B. Greenshields, C. M. Hays, C. R. Hosmer, Sir W. C. Macdonald, Hon. R. Mackay, A. Macnider, H. V. Meredith, A. T. Paterson, Sir R. G. Reid, James Ross, Sir T. G. Shaughnessy, K. C. V. O.; Sir William C. Van Horne, K. C. M. G.

A special general meeting of the shareholders of the Ontario Bank was held at the head office of the bank, corner Scott and Wellington Streets, Toronto, on Thursday, December 12, for the following purposes: To receive a statement of the position of the affairs of the bank and the report of the directors thereon, to elect directors, to change, if deemed advisable, the date of the annual meeting, to take such action with reference to the affairs of the bank, so far as in the power of the shareholders, as they may consider advisable, and for such other business arising out of the foregoing as may properly be brought before the meeting.

The condition of the Bank of Nova Scotia's affairs at the close of October last is given in a statement just issued. Comparison is therein made with the close of December last. Cash reserves have increased from $8,445,961 to $9,106,809, including an item of $1,468,456 in sterling exchange and gold in transit from London. Public deposits have increased by some $2,000,000, and are now $24,888,393. Current loans are considerably larger; so that the bank does not appear to deserve the criticism, used by some ill-informed writers and speakers, that the banks are hampering legitimate business by refusing discounts. An addition is made to Rest account and a round sum carried forward. The large resources of this institution are in a strong condition.

A statement showing excellent earnings has been issued by the Imperial Bank of Canada for the half year ended with October. The profit for that period was $389,027, which added to the $426,316 brought over from the April half year made $815,343 to be dealt with. Dividend at 11 per cent. absorbed $265,869, and a special contribution of $25,000 was made by shareholders to Officers and Employees' Pension Fund. This leaves $524,274 to be carried forward. Premium on new stock issued supplied $86,358, and this has been added to Rest Account, which now amounts to $4,860,306, equal to the paid capital. The deposits of the Imperial Bank were at 31st October $30,461,066; and its circulation $3,786,617. The statement should please the shareholders and patrons of this progressive institution.

Are the Union and Quebec Banks to amalgamate? This is the most interesting and prominent question in banking circles to-day. While nothing official can be learned regarding the probability of such an amalgamation, the report that a move is being made in this direction is generally accepted by those in close touch with the financial situation. There is no question that leading interests in both institutions have been working towards amalgamation and that negotiations have already made satisfactory progress. Some time since, a report of the same nature was circulated regarding these two banks, and one of the strong arguments offered in favor of such an amalgamation was that the Quebec Bank to a very large extent covers a different field to the Union. As it now is, the Union and Quebec Banks are small compared with many of their rivals, while an amalgamation between them would result in an institution taking fourth place, with respect to paid-up capital, among the banks of Canada.

The statement of the Merchants' Bank of Canada for the half year ended November 30th makes an excellent showing. The net profits were at the rate of 15 4-5 per cent. per annum. The net profits of the half year, after payment of charges, rebate on discounts, interest on deposits, and making full provision for bad and doubtful debts, have amounted to $473,144.50. The balance brought forward from last year, ended May 31st, 1907, was $34,256.25, making a total of $507,400.75. This has been disposed of as follows: Dividends, $240,050, leaving a balance to be carried forward to next year of $267,400.

The statement for the current year of the Canadian Bank of Commerce, issued in advance of the annual meeting in January, shows remarkable net profits, amounting as they do to $1,752,349. These seem especially large compared with the $1,376,000 of 1905, and are great even compared with the gratifying $1,741,000 of 1906, which were termed by the president exceptional. But it must be remembered that the country is growing and that the bank grows with it, the total assets having risen from $98,000,000 two years ago to $113,000,000 to-day. After paying dividend at 8 per cent. and giving the usual $30,000 to pension fund, $350,000 has been written off Bank Premises account, and yet there was $675,912 undistributed profit to carry forward. Circulation and deposits remain in amount practically where they were a year ago. Among the assets, there is a marked increase of those in liquid form. The noteworthy changes are an increase of a million in coin, bullion, and Dominion notes, an increase of three millions in call and short loans, a decrease from $79,303,000 to $76,073,000 in current loans and discounts. The statement is a very creditable one.

A statement of the profit and loss account of the Bank of Toronto for the past year shows that net profits have been $586,635, a better ratio than the previous year's. There was also realized from premium on new stock $56,470, which was added to Rest, making that account four millions and a half, while the capital is a round four millions. The same amount as in 1906 was transferred to Officers' Pension Fund and the same amount written off Bank Premises. The result of the year's transactions must be gratifying to the management, which has for many years pursued a prudent policy and shown good earnings. An active business is shown by the general statement. Deposits are nearly a million greater, so that this bank is not one of those blamed by certain disappointed people for not accommodating the great public. Circulation shows an increase, too. The totals of assets and liabilities shown in this latest statement amount to the large sum of $38,097,288, which exceeds by $800,000 the similar sum of 1906.

A year ago the heads of the Bank of Ottawa made it clear that it was wise to "look out for squalls" financial. The president, in referring to uneasiness and high money on both sides the Atlantic at that time, declared the resolve of the bank to maintain strength in cash assets; and the general manager reminded his hearers that it was well "to be watchful and prepared for whatever reverses may come." Carrying out this view, it was noticeable that the proportion of liquid assets was raised from 28.5 per cent. in 1905 to 36.8 per cent. in 1906; or from $7,296,000 out of $25,562,000 to $11,967,000 out of $32,453,000. To-day it is evident that the bank has deemed it safe and found it profitable to employ in current loans and discounts three-fourths of the money out on call or short loans in the previous year. Thus the loans on call outside of Canada have disappeared and the current discounts have increased to $23,206,000. With this exception the figures of this year's statement do not vary greatly from those of last. Circulation is maintained at a high point, showing an active business; deposits show a trifling decline from last year, but an increase of $5,000,000 since 1905. Net profits of the year were $443,283, exceeding even the high ratio shown in the preceding report. Instead of making any addition to Rest, which remains at $3,000,000—same as paid capital—$46,968 is applied in reduction of Bank Premises and the large balance of $327,000 carried forward. Although power was taken to increase the capital of the bank by $2,000,000, no allotment is intended in the near future. The vacancy caused by the regretted removal by death of Mr. John Mather of the board of directors has been filled by the election of Mr. E. C. Whitney.

Breed, cashier; Louis H. Attwill, asst. cashier.

The Liberty Trust Company, of Boston, Mass., began business September 10 under the most auspicious circumstances. The new trust company is located in finely equipped rooms in the Sears building, corner of Court and Washington streets. This promptness in getting ready for transactions with patrons shows the energetic, aggressive management of the company. The company has a capital stock of $200,000, which was paid in full in less than three weeks after the charter was granted. Allan H. Sturges, the vice-president and treasurer, started his business career as messenger at the Traders' National of Boston After two or three years' experience in that institution and one or two others he accepted the position of receiving teller at the Puritan Trust Company, later being appointed paying teller, and about six years ago was elected assistant treasurer, which position he held until his resignation to accept the position of vice-president and treasurer of the Liberty Trust Company. Mr. Sturges is possessed of a genial personality, and that combined with his past experience and business ability cannot fail to be of great benefit to the new institution. Their statement of October 1, 1907, about one and one-half months, shows deposits of $618,155.33, which speaks remarkably well for this splendidly managed institution the full official staff of which is as follows: President, George B. Wason; vice-president, Melvin O. Adams; vice-president and treasurer, Allan H. Sturges; assistant treasurer, William H. Sumner.

Counterfeit National Bank Notes

The following is a complete list of all counterfeits on the National Banks that hav been presented at the United States Treasury Department, and embraces all that are i circulation. National Bank notes are divided into four classes, as follows: *First,* Th old series, bearing the small star-pointed seal, and signed by F. E. Spinner as Treasure *Second,* The series of 1875, bearing the scalloped seal, and signed by John C. New, A. U Wyman and Jas. Gilfillan as Treasurers. *Third,* The series of 1882, bearing the larg seal (chocolate color), and signed by Jas. Gilfillan, A. U. Wyman and C. N. Jordan a Treasurers. *Fourth,* The series of 1902, bearing the scalloped seal and signed by Ellis H Roberts and Charles H. Treat as Treasurers. All of these series have been counterfeited All notes known as the old series (having the star-pointed seal) were printed on plai bank-note paper. The series of 1875, 1882 and 1902 are printed on fibre paper. The series of 1875 have the charter number printed in large bold-faced figures on each end of note. The series of 1882 have the charter number printed in large figures on the note and engraved in small figures surrounding the face of note; back of note, the charte number is printed in large figures in green panel centre of note. The series of 190 have the charter number printed in large red figures on each end of note and engrave in small figures in border surrounding the face of note, also one of the following letters in red near the charter number on each end of note: N, E, M, W, S or P, which denotes in which group of States the bank that issued the note is situated. N denotes a New England State, E an Eastern, M a Middle, W a Western, S a Southern, and P a Pacific State.

All notes have the check letters A, B, C, D, printed on the face of note in upper and lower corners, diagonally opposite. A few banks have been furnished with notes bearing other letters of the alphabet, of which F, G, M, R and U have been counterfeited.

Photographic notes are not dangerous, as no invention has been perfected by which the various colors on a note can be produced. When a genuine note is photographed, the colors upon the counterfeit, originally, appear in black, the numbers and seals on the notes being in colors. It has been necessary, in order to imitate them perfectly, to color by hand in various ways. On the first counterfeits that appeared of this class the work was done in a careless manner, the tints produced being of a bad color, the black underneath showing through. On many of the recent counterfeits, the tints of the seals and numbers are excellent, but as a general rule photographic counterfeits are not dangerous. This class of counterfeits bear different numbers, and the numbers cannot be relied upon as a means of detection.

ONES

DESCRIPTION OF GENUINE NOTE

On genuine centre of note, vignette representing two females clasping right hands before an altar, to convey the idea of the Union re-established over the altar of our country by the return of peace and the aid of heaven. Left end, large ornamental figure "1" across, on which are words "United States," etc. Back of note, vignette Landing of Pilgrims.

National Bank Notes of all denominations have on back of notes, left end, coat of arms of the State; right end, that of the United States.

No genuine notes of this denomination have been issued since June, 1879.

DESCRIPTION OF COUNTERFEIT

Mass.	**Boston**	**National Eagle**.....	**A**	....Series of 1875....	993

John Allison, Register; A. U. Wyman, Treasurer.

Treasury No. 211944. Bank No. 3640. This photograph is the only counterfeit of the One Dollar Bills of the National Banks. Having been done on good paper, the black work fairly reproduced, though the red numbering is inferior, it is in some respects the best early photographic counterfeit, yet it was blurred in spots and off color.

TWOS

DESCRIPTION OF GENUINE NOTE

On genuine, left end of note, vignette a female representing America, seated on a parapet, unfurling the American flag, with thirteen stars in firmament. Rest of note elongated figure 2. Back of note, vignette represents return of Sir Walter Raleigh to England from America, introducing smoking tobacco before assembly of Lords in 1585. Coat of arms of State.

No genuine notes of this denomination have been issued since June, 1879.

DESCRIPTION OF COUNTERFEITS

State.	City.	Bank.	Check Letter.	Date or Series.	Charter No. of Genuine.
N. Y.	**Kinderhook**	**National Union**.	**A**	....July 1, 1865.....	929

On the genuine the check letter A at the left of note, near the vignette, has one flourish under it; on the counterfeit there are two flourishes under the check letter.

Linderpark **National Union**—No such bank; all fraudulent.

N. Y. City **Market National**.....**A**....July 1, 1865..... 964

In the genuine issue, over the letters AR of the title MARKET appear three flourishes. In the counterfeit there is only one.

N. Y. City **Marine National**.....**A**....July 1, 1865.....1215

On genuine title reads—"Marine National Bank of the City of New York;" on counterfeit words *"the City of"* are omitted.

N. Y. City **Ninth National**.....**A**....July 1, 1865..... 387

On genuine the title reads—"The Ninth National Bank of *the* City of New York." Counterfeit the title reads—"The Ninth National Bank of City of New York," omitting *"the."*

N. Y. City **St. Nicholas National**....**A**....July 1, 1865..... 972

In the genuine, "New York" over the date of July 1, 1865, is engraved in italic, sometimes called stump letters; in the counterfeit the "New York" is engraved in script.

Peekskill **Westchester Co. Nat.** ....**A**....Aug. 15, 1865.....1422

This bank has two bills, check letters A and B; check letter A counterfeited. In the counterfeit, under the left check letter A, there are two flourishes, in the genuine but one.

TWO—Continued

State.	City.	Bank.	Check Letter.	Date or Series.	Charter No. of Genuine.
Penn.	**Philadelphia**	**Sixth National**	**A**	July 1, 1865	352

No bills from this plate found in circulation.

R. I.	**Newport**	**National Bank of R. I.**	**A**	Nov. 1, 1865	1532

The counterfeits on this issue are very inferior and printed from stone. The imprint "National Bank Note Co., New York," and other small lettering, is hardly legible, the letters are so poorly formed, with no approximation to the original work.

FIVES

DESCRIPTION OF GENUINE NOTE

On genuine left end of note the vignette represents the discovery of the new land, Columbus being the principal figure of a group on the deck of the caravel; right end, Columbus introducing America to Europe, Asia and Africa. Back of note, Landing of Columbus in 1492. In June, 1882, a new design was adopted on the left end, being a beautiful portrait of the late President Garfield. Back of note, the charter number of bank printed in green panel, centre of note, surrounded by lathe-work. The series 1882 notes having brown border backs, while those prior to series 1882 had green border backs. The series of 1902 notes have the portrait of Benjamin Harrison on left side of face of note; the number panel with denomination counters at either end below portrait. On the back is a vignette, Landing of the Pilgrims, with legend and ornamental base, in centre of note.

TENS

DESCRIPTION OF GENUINE NOTE.

On genuine, left end of note, vignette represents Franklin, with kite in hand, experimenting with electricity, with assistant seated on rock near him. Leyden jar in foreground and 1752 in lower left corner. Left end vignette represents female on eagle soaring above clouds snatching the lightning, to represent genius of America seizing and utilizing lightning of heaven. On counterfeit the post in vignette, lower left corner, was made perfect or plain; the genuine at one-fourth inch from the ground shows a knot hole or nick. Back of note, vignette represents De Soto discovering Mississippi in 1541. All notes of this denomination prior to series of 1882 had green border backs, and those of series 1882 have brown border backs, with charter number of bank in green panel, centre of note, in place of De Soto vignette. The series of 1902 has portrait of William McKinley on left side face of note. The number panel is below portrait, large denomination counter in upper right corner and smaller denomination counters in upper and lower left corners. On the back is vignette. Female figure, Navy and Merchant Marine. Legend with small denomination counter in center. base of note.

FIFTIES

DESCRIPTION OF GENUINE NOTE

On genuine, left end of note, vignette represents Gen. Washington crossing the Delaware; above is large "50," crowned by "FIFTY." Right end, vignette represents soldier of the Revolution of 1776 on picket duty; he sees in a vision future glory of his country, typified by Union of Liberty and Justice with Victory, represented by three females in mid-air, with "Victory" crowning whole. Back of note, vignette represents Embarkation of Pilgrims. All notes of this denomination prior to series of 1882 had green border backs; those of 1882 have brown border backs, with charter number of bank in green panel, surrounded with lathe-work, in place of vignette Embarkation of Pilgrims. The series of 1902 has portrait of John Sherman on left side, face of the note, number panel below portrait. Large denomination counter in upper right and lower left corners; small denomination counter in lower right corner. On the back there is a vignette, Male figure, with denomination counter, lower left corner, and vignette, Female figure, Engine and Factory scene, right of note.

ONE HUNDREDS

DESCRIPTION OF GENUINE NOTE

On genuine note, left end vignette represents Commodore Perry leaving his flagship "Lawrence;" above is large ornamental "C" and "100." Right end vignette represents angel with coronet, on which is "Liberty," her hands extended towards fasces planted on rock, entwined by wreaths and belts, latter bearing "The" and "Union," at right, "maintain it" in burst of sunlight; whole designed to represent Genius of America invoking aid of heaven to maintain and preserve the Union; above vignette is "100" and "C." Back, vignette represents Declaration of American Independence, July 4, 1776. All notes prior to series of 1882 had green border backs; those of 1882 have brown border backs, with charter number of bank in green panel, instead of vignette Declaration of American Independence. The series of 1902, on left side of face of note, has portrait of John J. Knox, with number panel below portrait. Large denomination counter in upper right and lower left corners; small denomination counter in lower right corner. On the back of the note is vignette, Two male figures, eagle, shield and flags in centre of note, with legend and vista of Capitol and Monument at base.

DESCRIPTION OF COUNTERFEITS

State.	City.	Bank.	Check Letter.	Date or Series.	Charter No. of Genuine.
Mass.	**Boston**	**First National**	**A**	Feb. 2, 1864	200

On genuine vignette, left end, water drops from both sides of bow oar; on counterfeit from only one side. Crossing of letter "T" omitted in "MAINTAIN" on right end of counterfeit. This defect is often mended by reprint, pen or pencil, but not so as to deceive close observers. On the genuine bills the sailor, standing in the bow of the boat, has a medium-sized head and face with a partly opened mouth; on counterfeits the same man has a large broad head and face, a closed mouth, and broad full forehead. On the back of the genuine bills the lettering of the several panels is properly punctuated. In the counterfeits the lower panel containing a quotation from the law against counterfeiting, on second line, after the word "IT" a comma is omitted, and after the word "PRINTED" on the fourth line in same panel.

	Boston	**National Revere**	**A**	July 20, 1865	1295

The genuine note has space of 1-16th of an inch between edge of wing of figure of Liberty and shading of letter "C" in upper right corner; on counterfeit about half the distance. On genuine, in vignette, left end, water drops from both sides of bow oar; on counterfeit but from one side. On genuine distance between wing of figure of Liberty and foot of check-letter A is over 3-16ths of an inch; on counterfeit hardly ⅛ of an inch. On genuine a line drawn sharply under words, "with the U. S. Treasurer at Washington," if extended strikes the lower lip of figure of Liberty; on counterfeit it strikes the chin. Face of sailor in counterfeit, bow of boat, resembles a skeleton or death's head. On the back of the genuine bills, in the upper lettered panel, on the third line, right, the words "OTHER DEBTS" are properly spaced. In the counterfeit the "R" in "OTHER" joins the "D" in "DEBTS," and the "D" is raised above the letters preceding.

Instructive Guides

U. S. Notes of date 1862 and 1863 have no jute or fibre in the paper.

Series of 1869, 1874, 1875 or 1878 are printed on a distinctive fibre paper known as the Wilcox patent.

Series of 1880 are printed on paper having a red and blue silk thread running from end to end, one at the top and the other at the bottom of the note, and shreds of red and blue silk fibre scattered all through the paper, and known as the Crane patent. Then the scattered threads were discontinued, leaving only the parallel threads or one of them. Then, later on, was adopted the new kind of paper, having only the scattered threads localized in two bars, one across each end of bill.

The counterfeits of U. S. Notes, of dates 1862 and 1863, also some of Series 1875, bear the small red seal, pointed (old seal).

Counterfeit 50's and 500's of Series 1869, and some counterfeits of Series 1880 bear the large red seal, lathe-work points.

Some 20's and 10's (1880) bear large red seal, plain border.

Few large chocolate seals, lathe-work points, are counterfeited on any bills.

Very few National Bank Bills bearing red pointed seal have any fibre in paper.

Series of 1875 (all of which have the red scalloped seal) are either printed on jute fibre paper, or the silk line paper, the same as used for the U. S. Notes, Series of 1880.

Series of 1882, bearing the brown scalloped seal, such are also printed on the same silk line paper as the U. S. Notes, Series of 1880.

The check-letters, A, B, C or D, referred to in the body of this DETECTOR, are all printed in *black* ink on the face of U. S. Notes and National Bank Bills, as well as on the Bills of the Dominion of Canada. Some U. S. National Banks have been supplied with other letters.

THE NUMBER SYSTEM.

All Government Notes—but not National Bank Bills—are printed of one denomination four on a sheet, and lettered respectively A, B, C or D. Each note also bears a Treasury number, and divide this number or only the last two figures of it by four, and if the remainder is one then the check letter should be A; if two remainder then B; if three remainder then C; and if no remainder then D. If the result shows otherwise then the numbering is wrong, and hence the bill is a counterfeit. Wrong numbering will detect a very large number of the counterfeits in circulation, but some counterfeits, however, are correct.

UNITED STATES NOTES AND CERTIFICATES.

The old issue of United States notes was divided into four series, all of which were signed by L. E. Chittenden as Register and F. E. Spinner as Treasurer. The series of 1869 were signed by John Allison as Register, and F. E. Spinner as Treasurer. Of the series of 1875, numerous counterfeits have appeared, from the 1's to the 50's. Notes of this issue are signed by John Allison, Register, and John C. New, A. U. Wyman and Jas. Gilfillan as Treasurers. Of the series of 1878, but two denominations have been counterfeited, the 10's and 20's, and of the series of 1880, the 2's, 5's, 10's, 20's, 50's and 100's.

On both the United States notes and gold and silver certificates there are usually small engraved figures under the check-letter. They represent the number of the plate from which the note is printed, and are used as a means of identification of the printers through whose hands the note passed. As many as 60 plates may be used at one time in printing notes of one denomination, and each plate has its own number. The small figures have been printed on all notes since 1862.

No gold certificates have been issued below the denomination of $10. All certificates are issued and numbered the same as Treasury notes, and are check-lettered in their order on each sheet.

Only two denominations of gold certificates have been counterfeited, the 20's and 100's.

Six denominations of silver certificates have been counterfeited, the 1's, 2's, 5's, 10's, 20's, and 100's, and the counterfeits are described on pages 37 to 47.

All U. S. Treasury notes issued prior to 1869 were printed on plain bank note paper. All issued since, commencing with the series of 1869, are printed on fibre paper. Many of the old issues were counterfeited, as the paper used had no special distinctive feature, engraving being mainly relied on by the Government to prevent imitation. As numerous counterfeits appeared on the old issues, the Government was obliged to adopt, in 1869, a special paper, the distinctive feature of which was a narrow localized tint of short blue fibre running the entire length of the sheet in such a manner as not to lessen its strength or interfere with the printing. When examined under the microscope, these fibres have the appearance of coarse black hairs, of different lengths and shapes, scattered promiscuously, regardless of regularity, over the entire surface. This paper is known as the Wilcox patent. In 1878 another feature of fibre paper was adopted, somewhat similar, with two silk threads running lengthwise throughout the note. This is known as the Crane patent.

Series 90. Convertible note. The best of the counterfeits of the five-dollar Treasury Notes of 1862 and 1863. Engraving coarse, but the vignette head of Hamilton presents a fair expression. The lathe-work around the large figure 5, in right upper corner of note, is defective. Lathe-work on back of note also faulty. Plates captured.

New series, and new series 70. Inferior counterfeits. The engraving on the face of the notes is very coarse; vignette statue of Liberty, left end of notes, looks like a cheap wood engraving. Vignette head of Hamilton, right end of notes, coarse, of very poor appearance, and not a likeness. Signature of L. E. Chittenden, Register, engraved in coarse lines, not a fac-simile of genuine. Numbering very poor. Imprint of American Bank Note Company imperfect. Lathe-work around the figure 5 on the counterfeit and on the back of notes very defective.

Act of March 2, 1863.
L. E. Chittenden, Register.

New series 77. A passable counterfeit. The engraving on the face of the note is coarse, the lathe-work around the figure 5, on the counter, right upper corner of bill, is

very defective. The vignette of Hamilton, right lower corner, though poorly engraved, presents a fair expression, and is to a certain degree a likeness. Vignette Statue of Liberty, left end of bill, "scratchy" and unfinished in detail, and lacking the cross lines in shading. About the feet of the statue a few rough lines alone appear, instead of the sharply defined folds of drapery shown on the genuine. Lathe-work on back of note faulty, the lines not traceable in the green tint.

Act of March 3, 1863. L. E. Chittenden, Register. **A D** Dated March 10, 1863. F. E. Spinner, Treasurer.

New serious 77, and new series. Good counterfeits of these series. Engraving quite well done; general appearance comparatively good; very likely to deceive unless carefully examined. The lettering of these counterfeits is well engraved and the shading regular, yet heavier than on genuine. The lathe-work around the figure 5 on the counter, right upper corner face of bill, appears good at first sight, yet when inspected is found to lack the very fine continuous lines of the genuine. The vignette of Hamilton is almost as finely engraved as the genuine, and presents a very fair likeness. The vignette Statue of Liberty, left end of note, is not so carefully finished; the general features of the statue and its drapery are discernible, but details are imperfect or wanting. On the left hand of the figure (the side toward the body of the note) the drapery below the knee does not show the ornamental ball-tassels as prominent as on the genuine. Lathe-work on back of note defective.

Act of March 3, 1863. John Allison, Register. **A** Series 1875. A. U. Wyman, Treasurer.

Photograph. Portrait of Jackson. Printed on plain paper coarse and heavy. Seal and cycloid work very pale. Lathe-work on back, and in two counters on face, so blurred hardly a line can be seen.

Act of March 3, 1863. John Allison, Register. **A D** Series 1875. A. U. Wyman, Treasurer.

A poor counterfeit, dark and blurred, not calculated to deceive. Portrait of Jackson. Another photographic counterfeit of this series (check letter A) has such a good appearance as to deceive experienced handlers. Under magnifying glass engraving looks more like a wood-cut than steel. No fibre paper used. Numbering is good, seal poorly executed, looks smeared or washed. They bear different numbers.

Act of March 3, 1863. John Allison, Register. **C** Series 1875. A. U. Wyman, Treasurer.

An excellent counterfeit, and liable to deceive. On genuine, upper left corner, series of 1875 in enclosed by flourishes. On counterfeit flourishes are omitted. Portrait of Jackson and vignette in centre coarse. Shading of words "United States" in title scratchy. Lines uneven. All genuine notes of this series are printed on fibre paper; counterfeit is on plain, but an attempt at imitation is made by printing fine lines in left panel on back.

Act of March 3, 1863. John Allison, Register. **D** Series 1875. A. U. Wyman, Treasurer.

A fair counterfeit for photographic process. Portrait of Jackson. Numbered B8058120. Some notes are a trifle shorter than genuine. Fibre in genuine is imitated by pasting two thin sheets of paper together, with fibre between them. Only color on face is Treasury number, which is badly tinted, being traced with a pen.

Act of March 3, 1863. John Allison, Register. **D** Series 1875. A. U. Wyman, Treasurer.

Same photographic process as above described, and numbered same. Portrait of Jackson. Treasury numbers and seal bad color, originally black, but tinted, and black shows through pink. Figures 1875 on genuine, upper right corner, are omitted.

Act of March 3, 1863. J. Fount Tillman, Register. **A** Series 1880. D. N. Morgan, Treasurer.

A poor counterfeit. Portrait of Jackson poor, and he appears cross-eyed. Curved line between "Series of" and "1880," as well as the floral design at the end of the imprint of the Bureau Engraving and Printing, are both omitted.

Act of March 3, 1863. B. K. Bruce, Register. **B** Series 1880. A. U. Wyman, Treasurer.

Has a coarse, scratchy appearance. Many errors occur in spelling in fine lettering in border and elsewhere. "Treasury," under name of B. K. Bruce, spelled "Trastay." Portrait of Jackson.

Other counterfeits of this check letter and series have signatures of other Registers and Treasurers.

Act of March 3, 1863. W. S. Rosecrans, Register. **B** Series 1880. James W. Hyatt, Treasurer.

A very poor wood-cut production. Portrait of Jackson. Words "Bureau of Engrav-

Act of March 3, 1863. W. S. Rosecrans, Register. **B** Series 1880. J. N. Huston, Treasurer.

Poor. Large spiked chocolate seal. Imprint of Bureau of Engraving and Printing, upper left face, over "Series of 1880," missing. Shield in lower right hand corner of genuine not in counterfeit, and word "Five," which crosses "V" in said corner omitted. Also words "Register of the Treasury" and "Treasurer of the United States." Portrait of Jackson.

Act of March 3, 1863. J. Fount Tillman, Register. **B** Series 1880. D. N. Morgan, Treasurer.

A poor counterfeit, produced by photography. Portrait of Jackson; bears small scalloped seal. Paper of poor quality, lacks silk thread. No. A30301778.

Act of March 3, 1863. J. Fount Tillman, Register. **C 5** Series 1880. D. N. Morgan, Treasurer.

Photo-wood engraving; at first sight looks better than such notes usually do, but will not stand investigation. Lathe-work on both face and back very poorly imitated. Figures in Treasury number heavier and a darker blue than in genuine. Vignette in centre and portrait of Jackson, lower left corner face, fairly well engraved. Small scalloped carmine red seal. Printed on two pieces of paper with distributed silk fibre between.

Act of March 3, 1863. W. S. Rosecrans, Register. **D** Series 1880. J. N. Huston, Treasurer.

Poor counterfeit. Large spiked red seal. Portrait of Andrew Jackson on left end poorly executed, also frontier vignette in centre. Treasury numbers defective and off color. Paper fair, but lacks silk fibre running lengthwise of all notes of this series.

Act of March 3, 1863. J. Fount Tillman, Register. **D 52** Series 1880. D. N. Morgan, Treasurer.

Poor photography. Small scalloped seal, which with Treasury numbers poorly colored with brush. No. A38629060. Portrait of Jackson.

Act of Feb. 25, 1862. L. E. Chittenden, Register. **B C** New Series. Dated March 10, 1862. F. E. Spinner, Treasurer.

A fair counterfeit, calculated to deceive. Portrait of Lincoln lacks that fine, clear, lifelike expression. Eagle scratchy. Green ink trifle darker than in genuine. Lathe-work defective, shading of letters coarse. In green medallion counters, right and left of eagle, four green dots can be seen on genuine, left of figure 1 in 10; on counterfeit only three dots.

Act of Feb. 25, 1862. L. E. Chittenden, Register. **B C** Series 19. Dated March 10, 1862. F. E. Spinner, Treasurer.

Good; closely resembles genuine. Treasury numbers imperfect, ink a brick red color, figures very uneven and imperfect. Portrait of Lincoln poor, unlike genuine. On genuine line on upper side, under Treasury number, if extended, would strike below letter "N" in words "New Series," while on counterfeit it would strike higher up, near centre of "N."

Act of Feb. 25, 1862. L. E. Chittenden, Register. **B C D** New Series 23. Dated March 10, 1862. F. E. Spinner, Treasurer.

Excellent. Portrait of Lincoln slightly defective. Red figure trifle smaller than on genuine. Red ink somewhat blurred. Fine line under Treasury number, on genuine, if extended, would strike directly under the words "New Series." On counterfeit would strike near centre of the "N." Check-letter D of this counterfeit is of "Act of March 3, 1863," dated "March 10, 1863," otherwise plate is same.

Act of Feb. 25, 1862. L. E. Chittenden, Register. **B C D** Series 52. Dated March 10, 1862. F. E. Spinner, Treasurer.

Dangerous. Portrait of Lincoln. Has had extensive circulation. On top of genuine there are 15 small X's on each side of imprint of American Bank Note Co. On counterfeit 15 on left and 16 on right. In a second issue have 14 X's on right and 16 on left. This error will detect this counterfeit of Series 52.

Act of March 3, 1863. L. E. Chittenden, Register. **A B C D** New Series 53. Dated March 10, 1863. John C. New, Treasurer.

Dangerous. Portrait of Lincoln well engraved, closely resembling genuine. Numbering well done, ink good. Lathe-work surrounding the 10's in green medallion, somewhat

blurred and defective. There are nine counterfeits on this issue of 10's, and all notes of this denomination of the various series should be examined with care. There is also said to be a counterfeit $10, check letter A, on Series 19 of this issue.

Act of March 3, 1863.
John Allison, Register. **C** Series 1875.
John C. New, Treasurer.

Good. Genuine notes of this series are printed on fibre paper. An attempt has been made to imitate the fibre by printing lines in panel on back. Portrait of Webster poor. Lathe-work fair. Numbering poor. In line "This note is a legal tender for ten dollars," top of note, there are no spaces between words "a" and "legal," and "for" and "ten," in counterfeit. "W" and "D. C.," in "Washington, D. C.," in centre are larger. In counterfeit letters are of even size. On back, right panel, word "this" is printed "tms."

Act of March 3, 1863.
John Allison, Register. **D** Series 1878.
A. U. Wyman, Treasurer.

Poor photographic pen and ink process. Words "Register of the Treasury" and "Treasurer of the United States," which should appear under names of those officials, omitted. Treasury numbers poorly printed. Portrait of Webster poor, also vignette on end.

Act of March 3, 1863.
J. Fount Tillman, Register. **B** Series 1880.

E. H. Nebeker, Treasurer.

Fair; portrait of Daniel Webster fairly well executed, but lacks life-likeness; vignette in lower right corner poor; parallel silk thread imitated by blue ink lines; in "penalty" on back word "This" appears "Tnis." Small scalloped carmine-red seal.

Act of March 3, 1863.
J. W. Lyons, Register. **B 10-16** Series 1880.
Ellis H. Roberts, Treasurer.

A fair counterfeit. Portrait of Webster poor and nose flat. Lathe-work poor. Color of numbers and seal good. On two pieces of paper, with silk threads between, to imitate fibre in genuine. Back of note poor.

Act of March 3, 1863.
W. S. Rosecrans, Register. **B 2250** Series 1880.
James W. Hyatt, Treasurer.

General appearance good; Treasury numbers closely resemble genuine; large round red seal well executed; portrait of Webster poorly engraved, looks unnatural. Curved line on genuine between words "Series of" and "1880," upper left face, omitted. Numerous errors in "penalty" on back.

Act of March 3, 1863.
W. S. Rosecrans, Register. **C** Series 1880.
J. N. Huston, Treasurer.

Portrait of Webster. Note thought to be a joint production of the camera and wood engraving. The whole face of the note is so heavy, spotted and blotchy as to at once determine its false character. Numbering poor, lines in number panels scratchy.

Act of March 3, 1863.
W. S. Rosecrans, Register. **C** Series 1880.
James W. Hyatt, Treasurer.

Portrait of Webster. It is reported to be a photographic production, and the Treasury number on those discovered is A5191771. The numbering is poor, the figures being unequal in size and very irregular. The color is fair, but fades very easily like all sun-print photographs. Large red seal. No silk threads.

Act of March 3, 1863.
J. Fount Tillman, Register. **C 8** Series 1880.
D. N. Morgan, Treasurer.

Fair; most noticeable defects color of Treasury numbers, seal and vignette in lower right corner; Treasury numbers irregular in formation and darker blue than genuine. Small scalloped seal brick-red instead of carmine; vignette of Columbus presenting America to Europe, Asia and Africa has blurred appearance; folds of coat on Columbus scarcely distinguishable; skirt of Indian girl, particularly fur border at bottom, which are very plain in genuine, cannot be seen in counterfeit, all being blurred. Lathe-work and portrait of Webster good. Lettering has flat appearance, not standing out boldly as in genuine. Printed on two pieces of paper, between which silk fibre is placed, closely imitating the genuine, but surface is raised over fibre, and may be felt by rubbing the finger over it.

B. K. Bruce, Register. **D** Series 1880.
A. U. Wyman, Treasurer.

Photographic pen and ink counterfeit; general appearance good, but will not bear close examination; lathe-work poor. Portrait of Webster and vignette well done; imprint at top omitted; words "Series of," over 1880, upper left corner, is omitted, also words "Register of the Treasury" and "Treasurer of the United States," under signatures of B. K. Bruce and A. U. Wyman. Geometrical lathe-work on back poor, green ink

can be removed by moistening. Attempt made to imitate fibre paper by printing blue and red lines lengthwise. Large brown spike seal. Several of these counterfeits have check letter D changed to L, and A. U. Wyman to James Gilfillan as Treasurer. No genuine U. S. note has check letter L, as the Government uses only four check letters on U. S. notes: A, B, C, D. Other letters appear on National Bank notes only.

J. W. Lyons, Register.

A 249

Series 1901.
Ellis H. Roberts, Treasurer.

This is a good counterfeit, excepting the off-color of the red seal, and especially of the large X, the latter also having the word "Ten" crosswise of it. The seal is a little too dark, and is of a different red from the X. This X appears as having too much color, and is of too much of a light brick-red color; the delicate lines are far too heavy; it lacks that nice, clean look, with a contrast of light work and heavily shaded parts as appears on the genuine note. On close examination, below the large words "The United States of America," are horizontal or parallel lines, but such lack the cross lines that should be there, as on the genuine. The same applies also to the background of the portraits. The portraits of Lewis and Clark are good, as well as the buffalo. The paper is good, but the threads in it are too coarse. The numbering is very good, both in form and color, although the note is wrongly numbered—3592734—and the back of the note also looks well.

Legal Tender Acts of 1862 and 1863.
J. W. Lyons, Register.

A 252

Series 1901.
Ellis H. Roberts, Treasurer.

This counterfeit is apparently printed from photo-mechanical plates on a poor quality of paper, on which a few pen marks have been made in imitation of the silk fibre of the genuine. The green ink on back of note is of a pale color. The portraits of Lewis and Clark are scratchy and indistinct. The coloring of the seal and numbers are of a lighter color than the genuine.

Legal Tender Acts of 1862 and 1863.
J. W. Lyons, Register.

A 272

Series 1901.
Ellis H. Roberts, Treasurer.

A dangerous counterfeit. The most noticeable defect is buffalo, centre of note, which has appearance of pen work, but is not. Portrait of Lewis unnatural, but that of Clark very good. Lettering good. Color Treasury numbers and seal good. Printed on two pieces of paper of good quality, with silk threads between, which are coarser than the genuine. Counterfeit has a period between "Washington" and "D. C.," instead of comma.

A 461

Series 1901.
Chas. H. Treat, Treasurer.

A photo-mechanical production on two pieces of rather stiff paper with red and blue silb fibre between. Picture of buffalo and portraits of Clark and Lewis defective and in the masses of shadow lose detail. The denominational design, the seal and numbering are a darker red than the genuine. Back dark blue-green. Deceptive only when handled by persons unfamiliar with money. Texture of paper and color of back will attract attention of an expert.

Legal Tender Acts of 1862 and 1863.
J. W. Lyons, Register.

B

Series 1901.
Chas. H. Treat, Treasurer.

This counterfeit is a good lithographic production, with silk thread in imitation of distributed fibre. The most noticeable point of detection is the color of ink, which is a gray-black instead of the brilliant black on genuine. The counterfeit bears Treasury No. A5011299, color of which is good, as is also that of the seal. Lettering of note is well done, but the portraits of Lewis and Clark and the buffalo are scratchy, and do not stand out as clear as in the genuine; also back of Buffalo appears as if sun was shining brightly upon it.

Legal Tender Acts of 1862 and 1863.
J. W. Lyons, Register.

B 202

Series 1901.
Ellis H. Roberts, Treasurer.

Dangerous. Lettering very good, lathe-work only fair; portraits of Lewis and Clark at each end of note, while good, have not the life-like appearance of the genuine. In the female figure, right end of note, the "navel" is visible, on the genuine it is not. Color of the Treasury numbers is a brown-red instead of carmine-red, and the figures are not as heavy as the genuine. The lathe-work at first sight is good, but examination will show it is broken. The head of the buffalo appears flat, while in the genuine it is natural shape. The back of the note is good, but off color, having a faded tinge to it. This counterfeit contains silk fibre, but not as plentiful as in the genuine. Note has a wax or shiny appearance.

Legal Tender Acts of 1862 and 1863. J. W. Lyons, Register. **B 251** Series 1901. Ellis H. Roberts, Treasurer.

A fair counterfeit. Portraits of Lewis and Clark, and Buffalo, centre of note, not good. Lathe-work much broken. Color Treasury numbers and seal darker red than genuine. Back of note darker green than genuine. Paper two pieces put together, with fibre between. Note fully three-eighths of an inch too long.

Legal Tender Acts of 1862 and 1863. J. W. Lyons, Register. **C** Series 1901. Ellis H. Roberts, Treasurer.

(Plate number undecipherable.)

A good counterfeit, printed on paper of fair quality, with silk fibre or threads scattered on the surface, front and back. Color of Treasury numbers, also seal, very good. Portraits of Lewis and Clark not as lifelike as on genuine. Buffalo looks as though he were shedding his coat. Color of back good. Photo. process.

Legal Tender Acts of 1862 and 1863. J. W. Lyons, Register. **C 3** Series 1901. Ellis H. Roberts, Treasurer.

This counterfeit is printed on three pieces of thin paper, between which silk threads have been distributed, from zinc-etched plates, which have been touched up with an engraving tool. The portraits of Lewis and Clarke, and the picture of the buffalo are particularly bad, and should easily lead to the detection of this counterfeit. The seal and large numeral on the face of the note are much too light in color. The numbering is fairly good. The back is poorly printed, the green ink being smeared over the white lettering in many places. This counterfeit should not deceive a person exercising ordinary care.

Legal Tender Acts of 1862 and 1863. J. W. Lyons, Register. **C 57 B 52 C 105** Series 1901. Ellis H. Roberts, Treasurer.

Fair counterfeit. Portraits of Lewis and Clark, and buffalo in centre of note. Printed on two pieces of paper, between which miscellaneous silk threads are placed. Treasury number and seal off color, and figures in Treasury number larger than genuine. Lathe-work poor. Portraits scratchy. Back of note off color, but general appearance better than face of note.

Legal Tender Acts of 1862 and 1863. J. W. Lyons, Register. **C 86** Series 1901. Ellis H. Roberts, Treasurer.

Dangerous note; good quality of paper; no silk fibre, nor imitation of it. Seal and numbers excellent and of good color. Buffalo well done. Large red X well done, but bottom part has dark or blurred appearance. Portraits of Lewis and Clark have not life-like appearance of genuine. Shading under large words "United States of America," upper part of note, appears more of a solid black band instead of line work. Back of note not as well done, darker green than genuine; left arm of female figure not well outlined.

Legal Tender Acts of 1862 and 1863. J. W. Lyons, Register. **C 195** Series 1901. Ellis H. Roberts, Treasurer.

A good counterfeit, printed on bond paper. Fibre poorly imitated by green streaks in white panels. Lathe-work defective. Portraits of Lewis and Clark, also buffalo, deceptive. Color of back of counterfeit a light yellowish green.

Legal Tender Acts of 1862 and 1863. J. W. Lyons, Register. **C 376** Series 1901. Chas. H. Treat, Treasurer.

A crudely executed note. Buffalo note. Counterfeiter had $1,000 of this money when arrested at Evansville, Ind. Treasury No. A5619615.

Legal Tender Acts of 1862 and 1863. J. W. Lyons, Register. **D** Series 1901. Ellis H. Roberts, Treasurer.

Ordinary counterfeit. Vignette of Buffalo, and portraits of Lewis and Clarke, face of note, coarser and not as life-like as in genuine. Treasury serial numbers very bad, figures too large. The plate number is undecipherable. Back of note, the shade of green is very much darker than is found on the genuine. The counterfeits are printed on two pieces of paper pasted together, with a few widely distributed red silk fibres between them.

Legal Tender Acts of 1862 and 1863. J. W. Lyons, Register. **D 174** Series 1901. Ellis H. Roberts, Treasurer.

A fair counterfeit. Buffalo, centre of note, also portraits of Lewis and Clark not life-like as in genuine. Paper thin and contains coarse silk fibre. A period is used between "Washington" and "D. C.," on left face of note, instead of a comma.

Legal Tender Acts of 1862 and 1863. J. W. Lyons, Register. **D 213** Series 1901. Ellis H. Roberts, Treasurer.

This counterfeit is apparently printed from photo-mechanical plates on paper of good quality, between which silk threads have been distributed. The distribution of the silk is very poorly done, in several places it being lumped or massed together. Portraits of Lewis and Clarke poor; Buffalo scratchy. The number of the only specimen so far received is 10485437. Aside from the poor portrait work, the most notable defect is the Treasury number, the figures of which are too large and entirely different in formation from those of the genuine. The seal and large red numeral are well executed and of good color.

TWENTIES

Act of Feb. 25, 1862. L. E. Chittenden, Register. **A B C** Series 6. Dated March 10, 1862. F. E. Spinner, Treasurer.

Good; one of convertible series; in large green figure 20, at top and bottom of figures, small lines or dots extending across the figures very indistinct, while on the genuine they are distinct, uniform and straight. Treasury numbers larger than in genuine. Lathe-work poor, lines cannot be traced. Imprint of bank note company, lower border, irregular.

The description of this counterfeit will enable anyone to detect the five following counterfeits:

Act of Feb. 25, 1862. L. E. Chittenden, Register. **A B C D** New Series 7. Dated March 10, 1862. F. E. Spinner, Treasurer.

Not good; lathe-work in counters very irregular; lines cannot be traced; vignette in centre coarse. Treasury numbers poor; color of ink bad. Imprint of bank note company, lower portion of note, irregular and defective.

Act of Feb. 25, 1862. L. E. Chittenden, Register. **A B C** Series 24. Dated March 10, 1862. F. E. Spinner, Treasurer.

Fair; lathe-work in counters poor; lines cannot be traced; vignette in centre coarse. Letters crooked and poorly formed in imprint of bank note company, lower border. Description of Series 6 applies to this.

Act of March 3, 1863. L. E. Chittenden, Register. **A** Series 15. Dated March 10, 1863. F. E. Spinner, Treasurer.

Fair; engraving and lathe-work fair; counterfeit has convertible back. No genuine convertible notes issued under this act.

Act of March 3, 1863. L. E. Chittenden, Register. **A** New Series. Dated March 10, 1863. F. E. Spinner, Treasurer.

Not good; easily detected; engraving, printing and numbers very imperfect; lathe-work on back poor.

Act of March 3, 1863. L. E. Chittenden, Register. **A** New Series 19. Dated March 10, 1863. F. E. Spinner, Treasurer.

Poor; easily detected. Vignette in centre coarsely engraved; lathe-work in counters irregular; lines cannot be traced. Bank note company's imprint poorly done; imperfect lettering.

Act of March 3, 1863. John Allison, Register. **A B C D** Series 1875. John C. New, Treasurer.

Fine at first sight, but will not bear close examination; no attempt to imitate lathe-work; portrait of Hamilton excellent, but background lacks fine lines in genuine; shaded with a brush. Fibre paper imitated on back by pasting tissue paper over right panel, covering some material similar to genuine fibre. Ink can be removed by moistening. Produced by pen and ink process. Other check letters than A, B, C, D on these counterfeits also.

Act of March 3, 1863. John Allison, Register. **B** Series 1875. James Gilfillan, Treasurer.

An excellent counterfeit by photographic and pen and ink process. Signed James Gilfillan, Treasurer. No genuine notes of this denomination and series were signed by him. Fine imprint at top of genuine, "Engraved and Printed in the Bureau of Engraving and Printing," directly under words "Legal Tender for Twenty Dollars," omitted. Lathe-work and parallel ruling poor and scratchy; inks of this class of counterfeits can be removed by moistening. Portrait of Hamilton.

Act of March 3, 1863. John Allison, Register. **A B C D** Series 1878. James Gilfillan, Treasurer.

Pen and ink work, similar to note described above; same description applicable to both except genuine notes of series of 1878 are signed by James Gilfillan as Treasurer.

Act of March 3, 1863. J. Fount Tillman, Register. **A 7** Series 1880. D. N. Morgan, Treasurer.

Very dangerous. Printed from engraved plates. The most noticeable defects in the note are in the portrait of Hamilton; the nose, instead of being round on the end, is brought to a sharp point; the chin, instead of being double, as in the genuine, is square: the head, from the back of the hair to the tip of the nose, on the line of the ear, is a fraction of an inch wider than the genuine; the work on the coat gives a flat effect and merges into the background in the lower part of the portrait. In the border the small figures "20" are omitted between the "XX" (thus: X20X). In the octagonal ornament under the word "Washington," centre face of note, the detail is so blurred that the little eight-pointed star forming centre of the ornament does not stand out in relief as in the genuine. The note is printed on paper of a very deceptive character and has the distributed fibre.

TWENTIES—Continued

Act of March 3, 1863. B. K. Bruce, Register. **A B C D** Series 1880. A. U. Wyman, Treasurer.

Excellent; description of three preceding counterfeit $20 notes applies to this. These bear large round seal, large spiked seal, and also scalloped seal, all finely executed and of excellent color.

Other counterfeit notes of this series bear same check letters, and are signed W. S. Rosecrans, Register, and C. N. Jordan, J. N. Huston, Jas. W. Hyatt and E. H. Nebeker, as "Treasurer of the United States."

Several of these counterfeits have been seen with series 1880 *changed to* 1889, *also to* 1890. *No genuine notes of this Act and denomination bear portrait of Hamilton of series of* 1889 *or of* 1890.

All genuine $20 *notes bearing portrait, Hamilton, this design, are of series of* 1875, 1878 *or* 1880.

Act of March 3, 1863. W. S. Rosecrans, Register. **D 3** Series 1880. E. H. Nebeker, Treasurer.

Woodcut production. Portrait of Hamilton poor; small scalloped seal, pale pink instead of carmine-red. Counterfeit bears Treasury No. A7145023 in lower left corner, but in upper right it is omitted. Imprint, "Register of the Treasury," and "Treasurer of the United States," under signature, is also omitted. Distributed silk fibre imitated by promiscuous ink lines.

A second issue has appeared with the omissions mentioned above inserted

FIFTIES

Act. of Feb. 25, 1862. L. E. Chittenden, Register. **C** Series 1. Dated March 10, 1862. F. E. Spinner, Treasurer.

One of the "convertible" series. An inferior counterfeit. Engraving badly executed. Vignette head of Hamilton defective; the nose of the portrait runs to an unnatural sharp point and there is a peculiar "dish" to the countenance not seen in the genuine. Numbering imperfect.

Act. of Feb. 25, 1862. Patented June 30, 1857. L. E. Chittenden, Register. **C** Dated March 10, 1862. New Series 1. F. E. Spinner, Treasurer.

A dangerous counterfeit. Engraving of portrait very good. Buttons on Hamilton's coat not as distinct as on genuine. In lower part of the figure o in large counters "50" on each end of note a white line crosses that figure o; in the counterfeit it does not. On back of note, in border, the small 50's are inclosed in lines—octagonal, but on lower left end of note two of these octagonal forms lap.

Act. of Feb. 25, 1862. L. E. Chittenden, Register. **A B C D** Series 1. Dated March 10, 1862. F. E. Spinner, Treasurer.

Altered notes. Very dangerous. Made by raising the genuine notes. By error, certain notes 2s and 50s bear the same vignette head of Hamilton. On genuine fifties the vignette head of Hamilton is at the top of the note; on the twos and the raised note, it is at the bottom. The vignette head of Hamilton has often been cut from genuine twos, the back removed and the face neatly cemented over the inferior work of poor counterfeit fifties, which were thus made passable.

Act of March 3, 1863. L. E. Chittenden, Register. Patented June 30, 1857 (on upper left of note). **A B C D** Dated March 10, 1863. New Series 1. F. E. Spinner, Treasurer.

Dangerous; portrait of Hamilton equal to genuine. On genuine, white lines cross lower portion of o in large figures 50 in counters on each end. On counterfeit, do not; buttons on Hamilton's coat indistinct (see description of note below New Series 2).

Act of March 3, 1863. L. E. Chittenden, Register. Patented April 28, 1863 (on upper left of note). **A C D** Dated March 10, 1863. New Series 2. F. E. Spinner, Treasurer.

One of the most dangerous counterfeits ever issued. Engraving excellent, numbering good, lathe-work fair. On genuine, back of note, small 50's in border are surrounded

FIFTIES—Continued

by octagons; on counterfeit they are circles. Two of these circles on lower left end are run together, omitting cipher, which makes figures read 550. Description of New Series 1, preceding, applies to this note. Portrait of Hamilton.

Act of March 3, 1863. John Allison, Register. **B** Series 1869. F. E. Spinner, Treasurer.

Good; genuine notes printed on fibre paper, counterfeits on plain paper; lathe-work and numbering good. Portrait of Henry Clay. Genuine have flourish between Series of and 1869, upper left corner face, thus:

On the counterfeit it is omitted, thus:

Act of March 3, 1863. **A B C D** Series 1875.

A photographic pen and ink note; fair appearance. Moisture applied to ink on any portion of note will remove it, and insures detection at once.

Act of March 3, 1863. W. S. Rosecrans, Register. **A B C D** Series 1880. J. N. Huston, Treasurer.

Excellent pen and ink counterfeit. Words "Act of March 3, 1863," over portrait Benjamin Franklin omitted; also word "Series" over letter N in "United States," "Engraved and Printed at the Bureau Engraving and Printing," to left of portrait of Franklin; color of seal excellent; parallel silk threads running lengthwise in genuine notes of this series, imitated by drawing fine blue lines and creasing note over lines.

Act of March 3, 1863. J. Fount Tillman, Register. **C 17** Series 1880. D. N. Morgan, Treasurer.

Dangerous; portrait of Franklin is very clear, except line of mouth and opening of ear, more pronounced. Small scalloped carmine-red seal, closely resembles genuine. Words "Act of March 3, 1863," over portrait of Franklin, also name "Benjamin Franklin," under portrait, the words "Engraved and printed Bureau Engraving and Printing," to left of portrait of Franklin, and word "Series" over letter "N" in "United States," are omitted on face. Penalty for "Counterfeiting" in panel left end back, words "Series of 1880" in panel in right end back and imprint "Bureau Engraving and Printing, Washington, D. C.," in centre lower border back, are omitted. Paper of good quality bank note paper, and distributed red and blue silk fibre is cleverly imitated by red and blue ink lines. Other counterfeits are likely to appear, differing in number, seal and check letter, and bearing other signatures.

ONE HUNDREDS

Act. of Feb. 25, 1862. L. E. Chittenden, Register. **A B C D** Series 1. Dated March 10, 1862. F. E. Spinner, Treasurer.

Fair; vignette of eagle coarse, feathers of tail indistinct. Treasury numbers larger than on genuine. On back, right of large circles, figures 100 are reversed, and read thus: 001. But few genuine notes of this denomination and issue in circulation.

Act of March 3, 1863. W. S. Rosecrans, Register. **A B C D** Series 1880. J. N. Huston, Treasurer.

Dangerous photographic pen and ink counterfeit. Imprint "Engraved and printed at the Bureau Engraving and Printing," to left of Portrait of Lincoln, omitted. Lathe-work and parallel ruling indistinct. On back, small lettering in penalty very irregular. Imprint "Bureau Engraving and Printing," at bottom, centre of note, missing.

FIVE HUNDREDS

Act of March 3, 1863.
John Allison, Register.

B C D

Series 1869.
F. E. Spinner, Treasurer.

One of most dangerous counterfeits in existence. Engraving and workmanship nearly equal to genuine; lathe-work excellent; Treasury numbers fair and color of ink good. Star on right of Treasury number blurred. Portrait of J. Q. Adams excellent, but lobe of ear is indistinct. In counterfeit, button upon coat, nearest lapel, almost square—in genuine, it is round. Vignette of figure Justice finely engraved, except following: As scale is held aloft in left hand, upright holding beam is crooked, and is larger than in genuine—in genuine, upright shows only to lower part of hand, while in counterfeit it shows to second finger from base; white curve in arm is a perfect oval in genuine; in counterfeit it is not. Left foot of vignette, as it extends from garment, presents a clubbed appearance in counterfeit, while toes are short and not one-half length of genuine. Parallel ruling is excellent; note is printed on fibre paper, signed "John Allison, Register," and "F. E. Spinner, Treasurer." Bankers and others should receive these notes with great care, as it is only by comparison with genuine that majority of experts can positively decide as to genuineness of a note of this class. Nearly all of this issue have been retired by Treasury, very few genuine notes now being in circulation. These notes should be received for collection only.

ONE THOUSANDS

Act of March 3, 1863.
L. E. Chittenden, Register.

A B C D

Dated March 10, 1862, and March 10, 1863.
F. E. Spinner, Treasurer.

Very dangerous; engraving nearly equal to genuine; a mistake was made in genuine issue under this act, which counterfeiters copied, that of dating notes March 10, 1862, instead of 1863; this error was corrected in a subsequent issue of the genuine. On face of counterfeit lathe-work in the border and on corner is much inferior to genuine. On left end of face, in border, words "Act of March 3, 1863," much coarser. Circles of 1,000 surrounding portrait of Morris much more irregular than in genuine. On counterfeit face of Morris is more front view. On genuine eyes cast more to left. Imprint "American Bank Note Co.," on right end of border, is much narrower than on genuine. These differ- four points at each end of note are much more pointed than on genuine. These differences were all noted by comparison with a genuine note of same date and check-letter. Very few genuine notes of this denomination and issue are in circulation. Bankers and others are warned to handle these notes with great care.

Counterfeit Treasury Notes

ONES

Act of July 14, 1890. **B** Series 1891.
. K. Bruce, Register. Ellis H. Roberts, Treasurer.

Engraving all poor. The very small words scarcely decipherable. Portrait of Stanton. arge scalloped carmine seal off color.

Act of July 14, 1890. **B** Series 1891.
. K. Bruce, Register. Ellis H. Roberts, Treasurer.

Poor counterfeit, on two pieces of paper, with pen lines in imitation of silk fibre. ortrait of Stanton. Small carmine seal.

Act of July 14, 1890. **C** Series 1891.
. Fount Tillman, Register. D. N. Morgan, Treasurer.

Printed from etched plate; will not deceive ordinary handler of money. Portrait f Stanton. Lathe-work and small lettering badly executed. Has distributed fibre, but f poor quality.

TWOS

Act of July 14, 1890. **A** Series 1890.
V. S. Rosecrans, Register. E. H. Nebeker, Treasurer.

General appearance good. Most noticeable defect in portrait of McPherson, head eing too broad and both eyes too large. Numbering poorly formed and a faded red olor. Lathe-work on face good, but on back very poor. Contains the two parallel silk hreads, and has large spiked chocolate seal.

Act of July 14, 1890. **A** Series 1891.
. Fount Tillman, Register. D. N. Morgan, Treasurer.

A poor counterfeit. Portrait of McPherson very poor. Small scalloped seal. Printed n two pieces of paper, between which are miscellaneous silk threads.

Act of July 14, 1890. **B** Series 1891.
V. S. Rosecrans, Register. E. H. Nebeker, Treasurer.

Poor; printed from zinc-etched plate. Portrait of McPherson. Plate and notes aptured.

Act of July 14, 1890. **B 5** Series 1891.
. Fount Tillman, Register. D. N. Morgan, Treasurer.

General appearance excellent, except Treasury numbers, which are more of a brown- ed than bright carmine-red of genuine. Portrait of General McPherson, while fairly vell engraved, appears sunk in background. Geometric lathe-work and parallel ruling oorly executed. Red scalloped seal excellent in workmanship and color. Face and back vidently printed on separate pieces of paper and pasted together, with silk threads between, hus imitating genuine fibre paper. Quality of the thread is very poor, paste caused olor of thread to spread in paper, giving impression at first that fibre was imitated by en and ink scratches.

Act of July 14, 1890. **B 33** Series 1891.
. Fount Tillman, Register. D. N. Morgan, Treasurer.

Poor; portrait of McPherson too dark and lacks lifelikeness; a white streak runs cross iris of each eye. Seal dark red instead of light carmine. Numbers have been hotographed on plate, and their dark outlines show beneath red ones; color of number- ng too dark red, but otherwise good. Lathe-work on face has indistinct, worn look. Ink ines represent silk fibres.

Act of July 14, 1890. **C** Series 1891.
V. S. Rosecrans, Register. E. H. Nebeker, Treasurer.

Poor; Treasury numbers heavier and a darker blue than genuine. Portrait of McPherson appears much blurred. Paper poor quality, but has distributed silk fibre.

TWOS—Continued

Act of July 14, 1890. J. Fount Tillman, Register. **C 32-34** Series 1891. D. N. Morgan, Treasurer.

Not a good counterfeit. Printed from photo-etched plates, on soft fibrous paper, into the surface of which a few silk threads have been impressed. Portrait of McPherson lacks life-like appearance; hair and beard has not carefully brushed appearance in genuine. Heavy black lines represent eyebrows; right side of nose obscured by black ink splotch. Lathe-work poor. Small scalloped seal has faded appearance.

Act of July 14, 1890. B. K. Bruce, Register. **D 4 B 4** Series 1891. Ellis H. Roberts, Treasurer.

This counterfeit will pass the careless handler of money. The most noticeable defect, however, is in the portrait of McPherson, which has a staring look, and the head appears flat, while in genuine it stands out life-like. The seal is a dark red, instead of bright carmine. The Treasury number brick-red, and the parallel ruling underneath very poorly imitated. The lathe-work is also very poorly imitated. The paper is much thinner than the genuine, and the silk fibre is closely imitated by red and blue pen and ink lines.

Act of July 14, 1890. J. Fount Tillman, Register. **D 27 B 28** Series 1891. D. N. Morgan, Treasurer.

Fair; McPherson portrait lacks life-like appearance; many white spots on face. Treasury numbers good. Seal lighter shade than genuine. Paper good quality; distributed fibre imitated with pen and ink lines.

A second issue of this counterfeit has appeared bearing check-letter B and plate No. 28.

Act of July 14, 1890. J. Fount Tillman, Register. **D 38** Series 1891. D. N. Morgan, Treasurer.

Poor; portrait of McPherson and small scalloped seal; word "Bearer" in center face, under "America," spelled "Beurer." Distributed silk fibre imitated by red ink pen scratches

A second issue of this counterfeit bears check-letter B and plate No. 4.

A third issue has appeared bearing signatures J. Fount Tillman, Register, and D. N. Morgan, Treasurer.

FIVES

Act of July 14, 1890. J. Fount Tillman, Register. **A 12** Series 1891. D. N. Morgan, Treasurer.

Portrait of Thomas miserable. Lettering and lathe-work poor.

Act of July 14, 1890. W. S. Rosecrans, Register. **A D** Series 1891. E. H. Nebeker, Treasurer.

Poor counterfeit. Small carmine-red seal. Portrait of General Thomas badly engraved.

A second issue of this counterfeit bears the signatures of J. Fount Tillman, Register, and D. N. Morgan, Treasurer. Distributed silk fibre imitated by red and blue ink lines.

Act of July 14, 1890. J. Fount Tillman, Register. **D** Series 1891. D. N. Morgan, Treasurer.

Photographic, touched up with pen and brush. Gray background of photography plainly seen. Portrait of General Thomas, small scalloped seal. Distributed fibre imitated with blue and red ink lines. Treasury No. B3776724.

Act of July 14, 1890. J. Fount Tillman, Register. **D 20** Series 1891. D. N. Morgan Treasurer.

Poor lithographic production, printed on heavy paper, with fibre imitated by ink lines. Bears portrait of Thomas and small scalloped seal. Imprint under signatures inclosed between parallel lines touching top and bottom of letters. A second issue contains silk thread.

TENS

Act of July 14, 1890. W. S. Rosecrans, Register. **B** Series 1890. J. N. Huston, Treasurer.

Poor; large chocolate spike seal; face has moth-eaten appearance; lathe-work very poor; star on epaulette of Gen. Sheridan four-pointed, should be five.

TENS—Continued

Act of July 14, 1890. J. Fount Tillman, Register. **A 2** Series 1891. D. N. Morgan, Treasurer.

Poor counterfeit, printed from woodcut plates of crude workmanship. Portrait of Sheridan. Printed on two pieces paper, between which silk threads are distributed.

Act of July 14, 1890. J. Fount Tillman, Register. **B** Series 1891. D. N. Morgan, Treasurer.

Photographic; in portrait of Sheridan right eye and mustache are hardly visible. Color of Treasury numbers and small scalloped seal maroon, instead of carmine-red.

Act of July 14, 1890. W. S. Rosecrans, Register. **B 2** Series 1891. E. H. Nebeker, Treasurer.

Pen and ink counterfeit; portrait of Sheridan. Most noticeable defect in mustache and chin whiskers, which appear smoothly brushed, while in genuine they are straggling and bushy. Imprint "Bureau Engraving and Printing," left end face and back, missing; also words "This note is a legal tender," etc., etc., in centre panel back; in their stead is an X; small scalloped carmine-red seal.

Act of July 14, 1890. J. Fount Tillman, Register. **C** Series 1891. D. N. Morgan, Treasurer.

Poor counterfeit; photographic; portrait of Sheridan; no attempt to color Treasury numbers, seal or back.

Act of July 14, 1890. J. Fount Tillman, Register. **C** Series 1891. D. N. Morgan, Treasurer.

Apparently printed from photo-etched plate, on two pieces of paper, between which silk threads are distributed. So poor, detailed description unnecessary. Small scalloped seal. Portrait of Sheridan.

Act of July 14, 1890. J. Fount Tillman, Register. **C 18** D. N. Morgan, Treasurer. Series 1891.

Good; most noticeable defects in portrait of Sheridan, which does not stand out as in genuine; right end of forehead and right cheek in counterfeit a mass of white patches, while in genuine it is dotted lines, called stipple work. Lathe-work in upper left corner, surrounding letter X, very good, also lettering generally on face; lathe-work surrounding figure 10, in upper right corner, not so well done, lines appearing broken and indistinct. Printed on two pieces of paper, between which miscellaneous silk threads are distributed in imitation of fibre.

TWENTIES

Act of July 14, 1890. W. S. Rosecrans, Register. **A** Series 1890. E. H. Nebeker, Treasurer.

Excellent photographic pen and ink counterfeit. Portrait Chief Justice Marshall appears broader than in genuine. Words "Series of 1890," under Treasury numbers, upper right corner, omitted; also imprint "Bureau Engraving and Printing," left of portrait. Small scalloped carmine-red seal, color closely resembles genuine. Parallel silk threads imitated by creasing and drawing lines over crease lengthwise of note. Notes of this issue and series are likely to appear differing in check-letter and seal.

ONE HUNDREDS

Act of March 3, 1863. W. S. Rosecrans, Register. **A B C D** Series 1890. J. N. Huston, Treasurer.

Dangerous photographic pen and ink counterfeit. In portrait of Farragut, nose appears longer and upper lip extends outward, while in genuine latter appears drawn in, giving determined expression. Imprint "Bureau Engraving and Printing," in border, right end, missing. Lathe-work surrounding large 100 poor; color of large spiked chocolate seal good. Imprint "Bureau Engraving and Printing," bottom centre of note, missing.

Counterfeit Silver Certificates

ONES

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **B 2753** Series 1886. J. N. Huston, Treasurer.

Has washed appearance. Work on face almost perfect. Numbers are in black, should be blue. Large spiked seal is of purple color. Back is of bluish cast in color, and poorly executed. Portrait of Martha Washington.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **D 1768** Series 1886. James W. Hyatt, Treasurer.

General appearance fair; color of Treasury numbers good; fine parallel ruling on which Treasury numbers are printed not strictly parallel; bust of Martha Washington has blurred look, white patches appearing on forehead and right side of face. In notch of key in counterfeit is letter T, while in genuine it takes the shape of T. Words "Treasurer of the United States" under signature of James W. Hyatt, badly and irregularly printed. Entire face lighter than genuine. Back is excellent. Counterfeit is shorter than genuine, and has no parallel silk threads. Small round red seal.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **A 16** Series 1891. D. N. Morgan, Treasurer.

Fair photo-etched plate bust of Martha Washington, has blurred look. Treasury numbers of good color, but heavier-faced than genuine. Small scalloped carmine red seal good both in color and design. Back has blurred appearance and is a darker green than genuine. This counterfeit is printed on distributed fibre paper, but of a poor quality.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **D** Series 1891. E. H. Nebeker, Treasurer.

Poor; portrait of Martha Washington, also entire face of note, has blurred appearance. Bears scalloped seal.

Act of Aug. 4, 1886. B. K. Bruce, Register. **C 34 D** Series 1896. Ellis H. Roberts, Treasurer.

Poor counterfeit. Small red seal. Treasury number, also seal, blurs when rubbed. Black printing on face very black; all fine lines lost in printing; no silk fibre. *A second issue bears check-letter* D 89, *and the Treasury number will not blur when rubbed.* Portrait of Martha Washington.

Act of Aug. 4, 1886. J. W. Lyons, Register. **C** Series 1899. Ellis H. Roberts, Treasurer.

Poor etched counterfeit, printed on good paper, but does not contain distributed fibre. Numbering of note poor. Back of note printed upside down. Eagle and small portraits of Lincoln and Grant.

Act of Aug. 4, 1886. J. W. Lyons, Register. **C** Series 1899. Ellis H. Roberts, Treasurer.

Note from rough photo-etched plates, and on paper of two thin sheets with ink lines on inside of sheets to imitate threads. Stars over eagle blurred. All lathe-work and portraits indistinct. Back of note dirty green; lathe-work very rough. Eagle and small portraits of Lincoln and Grant.

Act of Aug. 4, 1886. J. W. Lyons, Register. **D 1601 C 1661** Series 1899. Ellis H. Roberts, Treasurer.

A poor counterfeit. American eagle and small portraits of Lincoln and Grant indistinct and blurred. The figure "1" and scalloped seal in blue closely resemble soiled genuine notes. Printed on two pieces of paper, with fibre closely imitated with ink scratches. Right end of note bears check-letter C, left end the check-letter resembles a D upside down.

TWOS

(No check letter.)

Poor; printed from wood-cut; no resemblance to any issue of silver certificates. Has spread eagle on right end, face, and two Indians on left end, one standing, other kneeling. Has square green back, with word "Silver" in white capitals in centre. Very crude; no person should be deceived.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **A 1865** Series 1886. C. N. Jordan, Treasurer.

Fair; Treasury numbers fairly printed and good color. On upper right the fine parallel ruling lines, where Treasury numbers are printed, are omitted. Portrait of Gen. Hancock coarse. Small seal is pink and paper has a harsh feeling. Note is longer than the genuine.

TWOS—Continued

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **B 1863** Series 1886. James W. Hyatt, Treasurer.

Has large round spiked seal, but bright brick red, instead of dark red. Most noticeable defects in portrait of Gen. Hancock; no cross lines in left breast of coat in counterfeit, all lines being parallel. Color of Treasury numbers very dark blue, instead of ultramarine blue in genuine. Figures in numbers vary in size, some larger and others smaller than in genuine. Geometrical lathe-work surrounding large figure 2 in upper right corner well executed. No attempt made to imitate silk threads running lengthwise; some, however, are heavily creased in imitation of silk threads. A second issue of this counterfeit differs only in that it has large chocolate-colored spiked seal, and some notes have the silk threads imitated by red and blue lines.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **C 1857** Series 1886. James W. Hyatt, Treasurer.

General appearance very bad; vignette of Gen. Hancock is exceptionally poor, background scratchy. In counter, upper right corner of face, containing figure "2" geometric lathe-work not discernible, while in genuine it is very distinct. Check letter "C," next to vignette of Hancock, indistinct, and is omitted altogether on the right end of note. Lathe-work on back very poor. Words "Bureau of Engraving and Printing," in small panel, lower centre of back, can hardly be deciphered. Small round red seal.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **C 1858** Series 1886. C. N. Jordan, Treasurer.

Dangerous; Treasury numbers clear cut and closely resemble genuine; figures, however, not as heavy as on genuine. Portrait of Gen. Hancock well engraved, also geometrical lathe-work and parellel ruling. In upper left and lower right corner in figure 2 of genuine is engraved in three places word "TWO." A good microscope shows that in ball of 2 letters "OWT" are engraved, but this defect would not be discovered except with powerful glass. Has small round carmine seal. Silk threads running lengthwise of all genuine silver certificates missing, but notes are heavily creased to imitate them. A second issue has appeared with silk threads actually running through paper.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **D** Series 1886. J. N. Huston, Treasurer.

Poor; photographic; large spiked chocolate seal; creased to imitate parallel silk threads. Portrait of Hancock.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **D 2235** Series 1886. James W. Hyatt, Treasurer.

Very dangerous; check letter B, plate number 2235; Treasury numbers clear cut and closely resemble genuine. Portrait of Gen. Hancock well engraved, but hair and mustache do not appear brushed as smooth as in genuine; star on right shoulder imperfect. Color of large spiked seal good, but a shade lighter than genuine. In upper left and lower right corner in figure 2 of genuine word "TWO" is engraved in three places. A good microscope shows that in ball of the 2 on counterfeit the letters "OWT" are engraved, but this defect is revealed only by a strong glass. In word "United," in "Treasurer of the United States," under signature of James W. Hyatt, "i" and "t" extend a little below other letters. Top of upper loop of "J" in "James W. Hyatt" is directly under letter "D" in "D. C." in counterfeit; while in genuine it comes between "D" and "C." This point, however, does not apply to counterfeit on B1863 and C1857, also bearing signature of James W. Hyatt. The silk fibre imitated by drawing fine blue lines through the body. Back is exceedingly well executed. A second issue has appeared with two parallel silk threads actually in the paper.

A third issue has appeared with error of word Two, mentioned above, corrected.

A fourth issue has appeared, differing from previous three issues only in that it has small carmine red seal.

A fifth issue has appeared, differing from previous four issues only in that it has large spiked chocolate colored seal.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **B 14** Series 1891. E. H. Nebeker, Treasurer.

Dangerous; portrait of William Windom almost perfect, eyes appear to have a staring look, especially right eye; upper lip appears a little swollen, changing expression of mouth. Color of Treasury numbers and small scalloped seal excellent. These counterfeits all bear seven figures in Treasury number, first three being E414, other four figures differing on each note. Contains distributed silk fibre, thicker and darker red and blue than in genuine. Paper not as good as genuine. Later issues have first three figures also changed.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **C 13** Series 1891. E. H. Nebeker, Treasurer.

Wood-cut production. Portrait of William Windom, coarsely engraved. Cheeks appear sunken and chin out of proportion. Name of Rosecrans spelled "Roscerans." Register begins with B; Treasurer spelled "Treasurero;" numerous errors appear on back. Small scalloped seal, brick red, instead of carmine red.

TWOS—Continued

Act of Aug. 4, 1886. J. Fount Tillman, Register. **C 19** Series 1891. D. N. Morgan, Treasurer.

Dangerous. Most distinguishing defect absence of pronounced white circles around pupils of eyes in portrait of William Windom. Roll of lapel of coat left of portrait less clearly depicted than in genuine. Treasury numbers are a trifle brighter in color than in genuine, but figures are not in line, while figure 8 in number "15823091" is much smaller than others. Seal is decided pink instead of bright carmine, blurred in appearance. The shading around head in Windom portrait heavier, and very heavy shading occurs over eyes and under nose and chin. Paper of excellent quality, has silk fibre, but thread appears slightly coarser and red silk darker than in the genuine. Back almost perfect, but geometrical work somewhat blurred, in star around small "2" under large "2" on right, four half round shadings making points are scarcely perceptible in counterfeit, while very prominent in genuine.

Counterfeits bearing other Treasury numbers than above mentioned are in circulation, numbers being almost perfect and equal in size. Seal also closely resembles genuine in color.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **C 41** Series 1891. D. N. Morgan, Treasurer.

Photo-wood engraving. Portrait of Windom lacks life-like expression. Lathe-work on both face and back poor. Color of Treasury numbers good. Back much lighter green than genuine. Small scalloped carmine red seal.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **B** Series 1896. D. N. Morgan, Treasurer.

Fair counterfeit. Has a blurred appearance. Numbering poor. Printed on two pieces of paper, with silk fibre between. Portraits of Fuller and Morse on back of note indistinct. Allegorical vignette on front.

Act of Aug. 4, 1886. B. K. Bruce, Register. **B 27 C 29** Series 1896. Ellis H. Roberts, Treasurer.

Poor counterfeit. Face of note has blurred and scratchy appearance. Treasury number light blue. Paper poor quality and no attempt to imitate silk fibre. Allegorical vignette on front.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **D** Series 1896. D. N. Morgan, Treasurer.

Printed from etched plates crudely executed. Small round seal. Back is blue instead of green, paper poor, no attempt to imitate silk fibre. Allegorical vignette on front.

A second issue has back printed in green.

Act of Aug. 4, 1886. J. W. Lyons, Register. **A 240** Series 1899. Ellis H. Roberts, Treasurer.

Poorly zinc-etched counterfeit. Small portrait of Washington. Printed on two pieces of paper, with ink lines in imitation of silk fibre.

Act of Aug. 4, 1886. J. W. Lyons, Register. **A 478** Series 1899. Ellis H. Roberts, Treasurer.

A poor counterfeit, bearing Treasury number 81,436,281. Paper flimsy, and fibre imitated by ink scratches. Seal, numbers and large numeral not colored. Portrait of Washington.

Act of Aug. 4, 1886. J. W. Lyons, Register. **A 568** Series 1899. Ellis H. Roberts, Treasurer.

A poor counterfeit on two pieces of paper with silk threads distributed. Bears No. 93525370. Portrait of Washington.

Act of Aug. 4, 1886. J. W. Lyons, Register. **C** Series 1899. Ellis H. Roberts, Treasurer.

A poor photograph. Blue color of seal and numeral 2, left end of note, poorly applied. Back of note very crude. Portrait of Washington.

Act of Aug. 4, 1886. J. W. Lyons, Register. **C 117** Series 1899. Ellis H. Roberts, Treasurer

A deceptive counterfeit, printed on two pieces of paper, with distributed silk fibre, which, however, is thin and twice length of that in genuine. Bears small portrait of Washington. Small lettering on face of note poorly done. Back of note word "Public" is spelled "Purlic."

A second issue of the counterfeit has appeared printed on fibre paper, also a third issue with check letter changed to D174, *paper thin, containing silk fibre.*

Act of Aug. 4, 1886. J. W. Lyons, Register. **C 177** Series 1899. Ellis H. Roberts, Treasurer.

Fair counterfeit. Portrait of Washington poor. Blue color of seal, Treasury number and large 2 left end of note closely represents the genuine. Paper very thick, with fibres between. On back of note many words are misspelled.

FIVES

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **A 2023** Series 1886. James W. Hyatt, Treasurer.

General appearance excellent, color of Treasury numbers and small red round seal good; notch of key in seal is simply a perpendicular line, while in genuine takes the shape of T. Portrait of General Grant, in oval frame, has a scratchy, soiled look—two white patches appear on lower lip, near left corner of mouth; otherwise, engraving and printing very fair. Paper lighter than genuine, and has no parallel silk threads.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **A 2733 C 2733 C 3265 C 2736** Series 1886. J. N. Huston, Treasurer.

Poor. Vignette of General Grant looks pock-marked. Color of large chocolate spiked seal much darger than genuine. Numbering poor and line work in the number panel is broken. Notes with other plate numbers in circulation, no doubt.

Counterfeits also in circulation with name of E. H. Nebeker substituted for J. N. Huston.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **B 13** Series 1886. E. H. Nebeker, Treasurer.

Good. Small scalloped seal, excellent both in color and execution. Color Treasury numbers also good, but figures irregular. Portrait of General Grant poor, moth-eaten appearance.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **C** Series 1886. J. N. Huston, Treasurer.

Fair. Portrait of General Grant poor. Color of Treasury numbers fair. Parallel lines in panel on upper right hand corner containing Treasury number are in choppy waves; in genuine have an almost imperceptible curve. No silk threads running through the note, but imitated by creasing.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **D 2011** Series 1886. James W. Hyatt, Treasurer.

Fair; numbering good. Portrait of General Grant lacks life-like expression. Stud on shirt front missing. Check letters D in genuine have ending in a scroll crossing perpendicular line, but in counterfeit termination is small loop outside of line. On medallion on back in word "Pluribus," "i" missing. Fibre paper not imitated. Small round red seal.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. Series 1891. E. H. Nebeker, Treasurer.

Very poor; printed from woodcut. Portrait of Grant no likeness. Imprints "Register of the Treasury" and "Treasurer of the United States" under signatures omitted. Numerous errors appear. Small scalloped carmine seal.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **A** Series 1891. D. N. Morgan, Treasurer.

Poor photographic production. No attempt made to color numbers, seal or back. Portrait of Grant. Small scalloped seal.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **A 14 D 15** Series 1891. E. H. Nebeker, Treasurer.

The counterfeits are produced by photo-lithography. Portrait of Grant poor.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **A 59** Series 1891. D. N. Morgan, Treasurer.

Fair, but portrait of Grant very poor. Lathe work much broken. Small scalloped seal, reddish brown instead of carmine. Two pieces of good paper, between which are coarse silk threads.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **B** Series 1891. E. H. Nebeker, Treasurer.

Fair. New design back, small carmine seal. Portrait of General Grant poor. Treasury numbers irregular in size and heavier than genuine.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **B** Series 1891. D. N. Morgan, Treasurer.

Poor. Printed from woodcut. Portrait of Grant unlike him. Small lettering in border omitted. "Dollars" in border left end back spelled "DDLLARS."

Act of Aug. 4, 1886. J. Fount Tillman, Register. **B** Series 1891. D. N. Morgan, Treasurer.

Printed from etched plate; portrait of Grant, lathe-work and small lettering very poor. Paper of poor quality, but contains distributed fibre.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **B 7** Series 1891. E. H. Nebeker, Treasurer.

Poor. Portrait of Grant very poor. Shirt bosom plain front, while in genuine it is lace front. Treasury numbers heavier faced than genuine and almost black in color,

FIVES—Continued

instead of ultramarine blue. Color and workmanship of small round carmine seal excellent. Has distributed silk fibre.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **C** Series 1891. E. H. Nebeker, Treasurer.

Poor counterfeit; printed from woodcut. Portrait of Grant poor. Words "Act of August 4, 1886," "Series of 1891," "Register of the Treasury," and "Treasurer of the United States," under signatures, omitted. Scalloped carmine seal.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **C 5** Series 1891. D. N. Morgan, Treasurer.

Poor counterfeit, produced by lithography. Portrait of Grant very unlike genuine. Small scalloped carmine red seal.

Act of Aug. 4, 1886. W. S. Rosecrans, Register. **C 8** Series 1891. E. H. Nebeker, Treasurer.

Fair. Portrait of Grant poor, nose broad and flat. Color of small scalloped seal excellent. Paper fair, imitation of new distinctive distributed fibre paper, fibre imitated in blue and red ink by pen. New design back, poorly executed.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **D** Series 1891. D. N. Morgan, Treasurer.

Good. Seal and lettering on face and back well executed. Treasury numbers too small and poorly formed, but of good color. Portrait of Grant does not stand out as in genuine, but appears flat. Paper good quality; silk threads imitated by red ink lines.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **D 57** Series 1891. D. N. Morgan, Treasurer.

Fair. Portrait of Grant lacks life-like appearance; appears as if right side of face was a mass of scars. Small scalloped seal brownish red instead of carmine red. Distributed fibre missing.

Act of Aug. 4, 1886. B. K. Bruce, Register. **A** Series 1896. Ellis H. Roberts, Treasurer.

Photo-lithographic. Bears small red seal, poorly colored. Winged figure of woman, "America," standing upon globe, has crude appearance. Back of note has washed appearance. Paper poor, with fibre imitated by blue ink scratches.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **B** Series 1896. D. N. Morgan, Treasurer.

Good; new design; photo-lithographic production; printed on two pieces of paper with distributed silk fibre between. Most obvious defect is blurred appearance, particularly winged figure of "America," standing upon a globe, holding aloft electric lamp, fed by a ribbon floating in graceful curves to a bursting thunder cloud. In counterfeit part of electric lamp only seen, while in genuine whole lamp visible. Seal is a maroon red instead of carmine. Back is a much lighter shade green than genuine, and lathe-work poorly imitated.

Act of Aug. 4, 1886. B. K. Bruce, Register. **B 30** Series 1896. Ellis H. Roberts, Treasurer.

Fairly deceptive note, printed on two pieces of paper, with silk thread between. Face of note has a blurred and flat appearance. Above description also applies to this note.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **C** Series 1896. D. N. Morgan, Treasurer.

Photographic production; new design; small round seal; will not deceive ordinary handler of money. Back printed upside down. Front allegorical vignette typifying Electricity.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **C** Series 1896. D. N. Morgan, Treasurer.

Fair; produced by photography. Treasury No. 9170543. Small scalloped seal. Face grayish brown instead of black; seal tinted red and Treasury number blue; back of note blue gray, colored green, poorly and sparingly applied with brush. Front allegorical vignette typifying Electricity.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **C 22** Series 1896. D. N. Morgan, Treasurer.

Good counterfeit; printed on two pieces of very thin paper, pasted together, with silk threads distributed between, but silk too coarse. Numbering of good color, but much too small; most of shading on face is solid black instead made up of parallel ruled lines. Seal is darker red than genuine. Back better work than face. Front allegorical vignette typifying Electricity.

Act of Aug. 4, 1886. J. W. Lyons, Register. (Check letter not visible) Series 1899. Ellis H. Roberts, Treasurer.

Photographic process note, having appearance of washed note. Portrait of Indian chief "Onepapa." Lathe-work flat and broken. Paper fair quality, but does not contain silk fibre.

FIVES—Continued

Act of Aug. 4, 1886. J. W. Lyons, Register. (Check letter not visible.) Series 1899. Chas. H. Treat, Treasurer.

This counterfeit is of the Series of 1899, signed J. W. Lyons, Register, and Chas. H. Treat, Treasurer. Plate number undecipherable. Portrait of Onepapa fairly well done. Seal slightly off color, but out of alignment and poorly spaced. "Series of 1899," lower left of note, poor, and the titles under the names of Lyons and Roberts very poorly executed. Lathe work face of note not as good as genuine. Back of note, lathe work poor, but of a good color; paper of a soft texture and thin, with silk fibre imitated by red and blue ink marks.

Act of Aug. 4, 1886. J. W. Lyons, Register. **A** Series 1899. Ellis H. Roberts, Treasurer.

Photographic counterfeit of poor workmanship. Seal, numbers and numerals crudely colored. Portrait of "Onepapa."

Act of Aug. 4, 1886. J. W. Lyons, Register. **A 32 B 20** Series 1899. Ellis H. Roberts, Treasurer.

A good counterfeit. Bears portrait Indian "Onepapa." Most noticeable defect is the portrait, which appears much darker than the genuine, and does not stand out nor has the lifelike appearance of genuine. The color of the seal and numeral "V" and the word "FIVE" over the numeral in the counterfeit is a lighter blue than the genuine. The horizontal stroke in the middle of the stop at the end of the Treasury number, in the counterfeit, is an elongated diamond in shape; in the genuine the stroke is shaped like the upper part of an exclamation point placed horizontally. The lathe-work, except in upper right corner, will not stand investigation. Paper is a fair quality, containing distributed silk fibre.

A second issue of this counterfeit has appeared, differing only in that this new issue bears check letter A and plate No. 32.

Act of Aug. 4, 1886. J. W. Lyons, Register. **A 161** Series 1899. Ellis H. Roberts, Treasurer.

Portrait of Indian head coarse and blotchy. Lathe-work lines, particularly on back of note, broken into small white dots and dashes. Paper has red ink lines for silk fibre. General appearance of note good.

Act of Aug. 4, 1886. J. W. Lyons, Register. **A 289 ?** Series 1899. Chas. H. Treat, Treasurer.

Crude process counterfeit and blurred work. Paper has red and blue ink marks on it. Portrait of "Onepapa."

Act of Aug. 4, 1886. J. W. Lyons, Register. **A 289 389** Series 1899. Chas. H. Treat, Treasurer.

Poor counterfeits on two pieces of paper, with fibres between them. Numbers and seal off color. Lathe-work poor. Portrait of "Onepapa."

Act of Aug. 4, 1886. J. W. Lyons, Register. **A 389** Series 1899. Ellis H. Roberts, Treasurer.

A zinc-etched production; work poor. Seal and numbering off color. Portrait of "Onepapa."

Act of Aug. 4, 1886. J. W. Lyons, Register. **B** Series 1899. Ellis H. Roberts, Treasurer.

Poor lithographic note on heavy paper. Ink lines for silk threads. Portrait of "Onepapa."

Act of Aug. 4, 1886. J. W. Lyons, Register. **B** Series 1899. Ellis H. Roberts, Treasurer.

A fair counterfeit, but easily detected owing to errors in spelling. Right end face of note, word "Silver," the letter "v" is omitted, also letter "i" in word "Washington." Left end face of note word "Payable" is spelled "Payalle." Also imprint of titles under signatures are misspelled. Printed on two pieces of paper with silk fibre between. Plate number face of note unknown; back plate No. 375. Portrait of "Onepapa."

Act of Aug. 4, 1886. J. W. Lyons, Register. **B 37** Series 1899. Ellis H. Roberts, Treasurer.

A photo-etched counterfeit on good paper with ink lines for silk threads. It does not have brilliant looking new inks and paper, but like an old bill has the dull black and colored inks and a yellow-white paper. Blue ink too light. On head-gear of Indian is a mass of small dots, but not like the genuine, fine white feather work there. Under large words "United States" there is not the band of solid black shading with further shading below it, but all is run together and irregular. In lower left corner "Series of 1899" looks larger and too prominent and is far too dark, looking like white letters in a black panel. Back of note has too light a green ink, and all lathe-work there badly broken up.

Act of Aug. 4, 1886. J. W. Lyons, Register. **B 48 or 484** Series 1899. Ellis H. Roberts, Treasurer.

A poor counterfeit, but having washed appearance, will deceive the careless. Portrait of Indian "Onepapa" poor. Color, numbering and seal good. Paper fair quality, with pen and ink lines in imitation of silk fibre.

FIVES—Continued

Act of Aug. 4, 1886. J. W. Lyons, Register. — **C** — Series 1899. Ellis H. Roberts, Treasurer.

Photographic note on fair paper, but lacking silk fibre. Color Treasury number, also seal, much lighter than genuine. Portrait Indian "Onepapa" good. Back of note very poor.

Act of Aug. 4, 1886. J. W. Lyons, Register. — **C** — Series 1899. Chas. H. Treat, Treasurer.

A deceptive counterfeit. On two pieces of paper, between which is silk fibre. Seal and Treasury number good both as to color and formation. Back of note has bluish tinge, instead of green, as on genuine. Portrait of Indian.

Act of Aug. 4, 1886. J. W. Lyons, Register. — **C 602** — Series 1899. Ellis H. Roberts, Treasurer.

Dangerous counterfeit and well executed, but on two pieces of paper with silk threads between. Blue seal and large V too light. White oval spaces do not appear in the outer edge of seal. Numbering poorly printed. Counterfeit quarter inch too short and eighth inch too narrow. Portrait of Indian.

Act of Aug. 4, 1886. J. W. Lyons, Register. — **D** — Series 1899. Ellis H. Roberts, Treasurer.

A very poor counterfeit, bearing Indian head "Onepapa." Lathe-work and small lettering bad. No imitation of fibre.

Act of Aug. 4, 1886. J. W. Lyons, Register. — **D 930** — Series 1899. Chas. H. Treat, Treasurer.

Portrait of Indian Chief Onepapa; serial number B27140444; a half-tone production which should deceive no one familiar with money. Several thousand of these notes—faces and backs printed separately on thin bond paper—were picked up in the East River, New York City, on September 21, 1907. The plates were found in the box with them.

Act of Aug. 4, 1886. J. W. Lyons, Register. — **D 209 239** — Series 1899. Ellis H. Roberts, Treasurer.

Poor counterfeit, on fair quality paper containing fibre. Lathe-work and lettering very poor. Portrait of Indian.

Legal Tender Acts of 1862 and 1863. W. T. Vernon, Register. — **D 64** — Series 1899. Chas. H. Treat, Treasurer.

Back plate number shadowy—probably 567; portrait of Onepapa; serial number D15889140. Photo-mechanical production of a deceptive character except as to paper—two pieces pasted together with fibre between—which is stiff. Almost all the fine upstroke lines in the script lettering on face of note are lost, and in the Indian's feather war bonnet the fine detail of the feathers is wholly missing and there appears simply a blank space between the lower and upper ends of the feathers. General appearance good, back blue-green in tint, and should be instantly detected by anyone familiar with money.

Act of Aug. 4, 1886. J. W. Lyons, Register. — (Check letter missing) — Series 1899. Chas. H. Treat, Treasurer.

A deceptive pen and ink counterfeit. No check letter in upper left and lower right face of note. The words, "This certifies that there has been deposited in the Treasury of the" in upper border above "United States," are omitted, also "Silver Certificate" in lower border left and right end of note, also the imprint "Register of the Treasury" and "Treasurer of the United States" under signatures of J. W. Lyons and Chas. H. Treat. The blue Treasury number of note will blur when the wet thumb is rubbed over it. On back of note the words "Silver Certificate" in upper border are missing, and on genuine note surrounding the numeral "V" in centre of note are three lines of reading matter giving the status of the note, but on counterfeit only one line, and that illegible. Paper of fair quality, fibre cleverly imitated with pen and ink. Portrait of Indian.

TENS

Act of Feb. 28, 1878. B. K. Bruce, Register. — **A** — Series 1880. A. U. Wyman, Treasurer.

Poor counterfeit; photographic pen and ink process; paper poor, lacks distributed fibre and parallel silk threads in genuine. Large round red seal. Portrait of Morris.

Act of March 31, 1878. B. K. Bruce, Register. — **C** — Series 1880. A. U. Wyman, Treasurer.

Photographic pen and ink counterfeit; not well executed; words "Register of the Treasury" and "Treasurer of the United States" missing. Paper thin, yellowish and poor; fibre paper not imitated, and silk threads, which should run lengthwise, missing. Portrait of Robert Morris poor, and his name at lower left corner omitted; numbering fair. Script lettering under United States on back omitted. Large round red seal.

Act of Feb. 28, 1878. B. K. Bruce, Register. — **C** — Series 1880. A. U. Wyman, Treasurer.

Produced by photographic pen and ink process; exceedingly dangerous. Portrait of Robert Morris fair; imprint of his name left of portrait, is omitted. Imprint of "Register of the Treasury" and "Treasurer of the United States" is printed on these certificates, same as on genuine; also script lettering under United States on back. Crane's patent fibre paper imitated by drawing red and blue line lengthwise on back with pen. This is liable to deceive, particularly if note is held up to light, face front. Large round red seal.

TENS—Continued

Act of Feb. 28, 1878. G. W. Scofield, Register. **D** Series 1880. Jas. Gilfillan, Treasurer.

Photographic pen and ink process; paper very thin and poor; all genuine notes of this date and series are printed on fibre paper (Crane's patent), distinctive features of which are two silk threads running lengthwise through paper; this is imitated by drawing two parallel lines. Payable at Washington, D. C. Large round red seal. Portrait of Robert Morris.

Act of Feb. 28, 1878. G. W. Scofield, Register. **D** Series 1880. Jas. Gilfillan, Treasurer.

Photographic pen and ink counterfeit; payable at Washington, D. C. Pink characters on note photographed black and colored by hand in imperfect manner, leaving black underneath easily discernible. Trifle shorter than genuine. Large round red seal. Portrait of Robert Morris.

Act of Feb. 28, 1878. G. W. Scofield, Register. **D** Series 1880. Jas. Gilfillan, Treasurer.

Very poor; appearance of being printed from wood-cut; is ¼ inch shorter than genuine. Geometrical lathe-work poor. Paper, two layers of thin tissue, with silk parallel thread between. Word "all" omitted in "And all public dues, and when so received," and on back, space omitted between words "when so," making them one word. Treasury numbers uneven, have not clear-cut appearance of genuine. Large round red seal. Portrait of Robert Morris.

Act of Feb. 28, 1878. W. S. Rosecrans, Register. **A** Series 1886. James W. Hyatt, Treasurer.

Photo wood engraving, poorly executed. Portrait of Hendricks better than rest of face, but background of portrait represented by dots instead of fine lines. Color of Treasury numbers closely resembles ultramarine blue of genuine; figures not as heavy. Green ink on back much darker than genuine; geometric lathe-work poorly executed. Small round red seal.

Act of Feb. 28, 1878. W. S. Rosecrans, Register. **B 721** Series 1886. James W. Hyatt, Treasurer.

Produced by photo pen and ink process. Words "This certifies that there have been deposited in the Treasury," over words "United States," upper centre, omitted. Imprint "Register of the Treasury" under signature of W. S. Rosecrans, and imprint "Treasurer of the United States," under signature of James W. Hyatt, also missing. Portrait of Hendricks well executed. Color of Treasury numbers and large red spiked seal fair. Silk fibre imitated by drawing fine blue lines and by creasing note over lines.

Act of Feb. 28, 1878. W. S. Rosecrans, Register. **A** Series 1891. E. H. Nebeker, Treasurer.

Poor; imprint of Bureau of Engraving and Printing omitted from panel over Treasury number, lower left corner, face. Word "Register" spelled Regist. Color of Treasury numbers faded blue, almost green; numbers too heavy. Back very poor, both in color and workmanship. Distinctive paper of genuine not imitated. Small scalloped carmine seal. Portrait of Hendricks.

Act of Feb. 28, 1878. B. K. Bruce, Register. **A 16** Series 1891. Ellis H. Roberts, Treasurer.

Poor photographic counterfeit. Portrait of Hendricks. Seal a brick-red instead of carmine. Coloring done with brush and pencil.

Act of Aug. 4, 1886. J. Fount Tillman, Register. **A 17** Series 1891. D. N. Morgan, Treasurer.

Photo well executed; seal and numbers colored. Back of note a blue print. Portrait of Hendricks.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **A 72** Series 1891. D. N. Morgan, Treasurer.

This counterfeit will pass the ordinary handler of money. The most noticeable defect is the silver-gray color of the black ink, while the genuine is a jet-black ink. Also the seal on counterfeit is a lighter red than the genuine. The words "Bureau Engraving and Printing" above Treasury number lower left end of note, are missing. The comma after "Washington" and the period between "D" and "C" in "Washington, D. C.," under portrait, are missing. The face of Hendricks on counterfeit is not as full as that on genuine note, and the nose appears larger. The Treasury number on counterfeit is excellent color, but the figures not quite so heavy. Counterfeit is printed on two pieces of paper with silk thread between.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **A D** Series 1891. D. N. Morgan, Treasurer.

Photographic. Back and face printed in light brown; genuine, black on face and green on back. Portrait of Hendricks.

Second counterfeit, check letter A on back is blue print, colored green with brush, poorly done.

TENS—Continued

Act of Feb. 28, 1878. J. Fount Tillman, Register. **B** Series 1891. D. N. Morgan, Treasurer.

A good counterfeit. Portrait of Hendricks. Small scalloped seal. The words "Bureau of Engraving and Printing," above Treasury number, lower left end of note, are missing. In border, right end of note, in inscription "Act of February 28, 1878," the "7" in "1878" is reversed. Color and formation Treasury numbers very good. Contains distributed silk fibre.

Act of Feb. 28, 1878. B. K. Bruce, Register. **B 14** Series 1891. Ellis H. Roberts, Treasurer.

This note is apparently a lithograph, printed on two sheets of tissue paper, between which very coarse red and blue silk fibre has been distributed. The lathe-work in counters on face is crudely executed; lettering in border so blurred as to be illegible; color of ink is reddish brown instead of black; seal is of bright brick red instead of carmine. The back of the note is more deceptive than the face. The number of the back plate is 36. Line "Bureau Engraving and Printing" is so blurred as to be illegible, and all of the ornamental work is so blurred that detail is lost. Portrait of Hendricks.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **B 58** Series 1891. D. N. Morgan, Treasurer.

Photographic counterfeit. Portrait of Hendricks. Seal a salmon color, instead of carmine. Treasury numbers printed black and recolored blue. Lathe-work very poor.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **B 74 B 14** Series 1891. D. N. Morgan, Treasurer.

A dangerous counterfeit. Portrait of Hendricks well engraved. Distributed fibre imitated with red and blue lines in some counterfeits, in others silk thread has been placed between the front and back, the counterfeit being printed on two pieces of paper. The seal is well engraved, but a darker red instead of carmine. Figure in Treasury number very good, but parallel ruling underneath broken and indistinct. Lathe-work surrounding "10," also "X" in upper corner very poorly executed. The paper, a soft fibrous tissue, will not stand rubbing.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **B C D** Series 1891. D. N. Morgan, Treasurer.

Good photographic counterfeit. Portraits of Hendricks and small scalloped carmine-red seal. Gray background of photography, especially seal, shows through red color applied with brush. Distributed fibre imitated by pen and ink lines.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **C 47** Series 1891. D. N. Morgan, Treasurer.

Good; printed on two pieces of paper, with distributed silk threads between. Portrait of Hendricks does not stand out in bold relief. Right eye of Hendricks hardly visible. Imprint under signatures blurred and crowded. Shading of letters on face of note heavier than on genuine. Small scalloped seal and entire back excellent.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **D** Series 1891. D. N. Morgan, Treasurer.

Poor; printed from woodcut. Portrait of Hendricks unnatural. Treasury number 9850129.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **D** Series 1891. D. N. Morgan, Treasurer.

Lithographic production, liable to deceive the unwary. Portrait of Hendricks has not life-like expression of genuine. Seal, while good, is pale, and Treasury numbers are blurred. Printed on fair quality of paper and contains silk fibre.

Lithographic stone from which above counterfeit was printed was captured, with large quantity of counterfeit notes, all numbered E17,924,635.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **D 3** Series 1891. D. N. Morgan, Treasurer.

Fair. In portrait of Hendricks expression of mouth surly; under lip very thick and protruding; in genuine expression kindly. Treasury numbers a maroon instead of ultramarine blue. Small scalloped carmine seal, excellent in color and formation. Lathe-work on face and back, while good, does not resemble perfect continuous network of lines in genuine. Imprint "Register of the Treasury" and "Treasurer of the United States" under signatures poor, letters crowded together. Printed on two pieces of paper, of good quality, pasted together, with distributed silk fibre between.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **D 21** Series 1891. D. N. Morgan, Treasurer.

A good counterfeit, on paper of fair quality. Portrait of Hendricks. Seal decided pink instead of carmine. Green ink on back darker than genuine.

TWENTIES

Act of Feb. 28, 1878. G. W. Scofield, Register. **A B D** Series 1880. Jas. Gilfillan, Treasurer.

Photographic pen and ink counterfeit, payable at Washington, D. C., No. B675114. General appearance of note poor. Paper thin and poor. Portrait of Decatur.

Another counterfeit of this series has signatures B. K. Bruce, Register, and Jas. Gilfillan, Treasurer. Word "Register" in "Register of the Treasury," under name "B. K. Bruce," is "Regisier," and letters in word "Treasurer" only partly formed. In "Treasurer of the United States," under Jas. Gilfillan's name, word "Treasurer" is "Troosurer," and letters in "United States" imperfectly formed. On back, lower portion, word "Engraved" is "Engroved," and rest of sentence misspelled, with imperfect lettering on upper portion of back.

Another counterfeit of this series has signature B. K. Bruce, Register, and A. U. Wyman, Treasurer. Parallel silk thread imitated by ink lines. Large round red seal.

Act of Feb. 28, 1878. G. W. Scofield, Register. **B** Series 1880. Jas. Gilfillan, Treasurer.

This counterfeit is a production of the camera, the work being shallow and the black off-color. The large seal and XX's in colors are then surface printed. All numbers believed to be B2774258X. Portrait of Decatur.

Act of Feb. 28, 1878. G. W. Scofield, Register. **C** Series 1880. Jas. Gilfillan, Treasurer.

Photographic pen and ink counterfeit, payable at Washington, D. C. Not good counterfeit. Large round red seal. Portrait of Decatur.

Act of Feb. 28, 1878. B. K. Bruce, Register. **C** Series 1880. Jas. Gilfillan, Treasurer.

These counterfeits are an eighth of an inch shorter than the genuine. Paper thick, greasy and stiff; has neither distributed fibre nor parallel silk threads. In panel to left letters "R," "T" and "F" in word "Certificate" are wrong side up. On back "taxes" spelled "tares," and "engraved" is "engravod." Color of seal is brick red; should verge on brown. On all counterfeits seen, only two sets of Treasury numbers have been used, B1467X and B1487415X. Portrait of Decatur.

G. W. Scofield, Register. **D** Series 1880. Jas. Gilfillan, Treasurer.

Paper thin and poor quality; silk thread lengthwise of note missing; series omitted. Upper half of back very blue, as if note had been wet and color had run; lower half white, with yellowish tinge. Ink not bright as on genuine. Large round red seal. Portrait of Manning.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **A** Series 1891. D. N. Morgan, Treasurer.

A very poor zinc etching; work crude. Paper good, but blue ink lines for silk fibre. Portrait of Manning.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **A 27** Series 1891. D. N. Morgan, Treasurer.

Photographic. Detected by gray background of photography. Portrait of Daniel Manning. Treasury No. E6621705.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **B** Series 1891. D. N. Morgan, Treasurer.

Well executed and liable to deceive. Portrait of Manning. Hair top of head and background blend in one, while in genuine they are readily distinguished. Nose appears sharp and pointed, instead of round and broad at end. Figures in Treasury number heavier than genuine, and color a lighter shade blue. Back closely resembles genuine. Distributed silk fibre imitated by red and blue ink lines on back.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **B** Series 1891. D. N. Morgan, Treasurer.

A very poor counterfeit. Portrait of Manning. Small scalloped seal. On two pieces of paper, with silk fibre between. Note bears little resemblance to genuine.

TWENTIES—Continued

Act of Feb. 28, 1878. J. Fount Tillman, Register. **B 6** Series 1891. D. N. Morgan, Treasurer.

Dangerous counterfeit. Portrait of Manning good, but the left side of face presses against the background. Red and blue fibres imitated by pen and ink lines. Treasury numbers good. Small scalloped seal lighter shade red than the genuine.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **C** Series 1891. D. N. Morgan, Treasurer.

Well executed. Portrait of Daniel Manning. A white line separating left side face from background portrait gives it appearance of being sunk in background instead of standing out in bold relief. Has large eight-scallop seal instead of small twelve-scallop seal. Printed on good paper and contains distributed silk fibre.

Act of Feb. 28, 1878. J. Fount Tillman, Register. **C 5** Series 1891. D. N. Morgan, Treasurer.

A good counterfeit. Portrait of Manning appears flat, and ends of mustache not curled, as in genuine. Paper good quality, containing silk fibre.

ONE HUNDREDS

Act of Feb. 28, 1878. J. Fount Tillman, Register. **D 1** Series 1891. D. N. Morgan, Treasurer.

A very dangerous counterfeit. Most noticeable defect is in portrait. In genuine, Monroe represented as having pronounced cheek bones, one on left side of face being particularly prominent, while in counterfeit left cheek bone is missing, making face appear narrower than in genuine, and giving counterfeit different expression. In genuine right ear plainly parts hair, which is brushed upward in front and back of ear, while in counterfeit hair hides top of ear, and is not brushed upward. In name "James" under portrait letters "J" and "A" are not uniform with rest of letters, and bottom of "J" has more of upward loop than in genuine. Geometric lathe-work, lettering, numbering and parallel ruling in panel in which Treasury numbers appear are almost equal to genuine, but a critical examination will show parallel lines to be somewhat broken, particularly in lower left border. Treasury numbers are almost perfect, both in color and formation, but the figure 5 in the Treasury number is different, the space within lower loop being oblong, up and down, instead of being round, and space below top line of 5 is too narrow. One of the best points is the top button of waistcoat; this counterfeit top button has lines on it up and down only, and they show well and distinct, while genuine top button alone is cross lined (lines up and down and crosswise also), but these lines are delicate, and by wear, bad printing, dirt, etc., they may thus be wanting or overlooked. Geometrical lathe-work and lettering on back of note to the naked eye appears as good as genuine. Back plate No. 2.

Counterfeit Gold Certificates

TWENTIES

Act of July 12, 1882. B K. Bruce, Register. **A** Series 1882. James Gilfilllan, Treasurer.

Dangerous, for apart from the counters containing figures 20 on face, and portrait of Garfield there is little of the gray of photograph about it. Seal is small and scalloped, having reddish tinge, apparently applied with brush. Numbering is very pronounced and heavier than genuine. Note is one-half inch shorter and one-eighth narrower than genuine. Has two parallel silk threads running through it. Tint on back is light brown instead of orange. Persons handling gold notes must not forget that in this counterfeit they are left to determine its character by its tints rather than by lines in engraving, since it is a photograph of genuine work.

Act of July 12, 1882. J. W. Lyons, Register. **A 51** Series 1882. Ellis H. Roberts, Treasurer.

A poor photographic counterfeit, crudely executed, with coloring applied to seal and numbers. Portrait of Garfield.

Act of July 12, 1882. J. W. Lyons, Register. **C** Series 1882. Ellis H. Roberts, Treasurer.

This counterfeit is an untinted photograph, and should not deceive the careful handler of money. Portrait of Garfield fair. Treasury No. C2952835.

A second issue bears Treasury No. 588,572, but the red and yellow is poorly applied, and contains distributed silk thread.

ONE HUNDREDS

Act of July 12, 1882. J. W. Lyons, Register. **B 5** Department Series. Ellis H. Roberts, Treasurer.

A good counterfeit. Bears the Treasury numbers C424363 and C324369, and no doubt bear other numbers. The color of these numbers is good, but not the bright ultramarine-blue as the genuine. The portrait of Benton does not stand out in bold relief and life-likeness as does the genuine. The lathe-work surrounding the denomination 100 in upper right of note is flat, broken and has blurred appearance. Lettering on note good, except imprint under signatures of Lyons and Roberts, which is poor. The color of the word "GOLD" on face of note is unlike that on genuine, and the color of the back, instead of the bronze-yellow on the genuine, the counterfeit is a light salmon color. The counterfeit has the silk distributed fibre imitated cleverly with pen and ink scratches, and by holding note between the light and the eyes the absence of silk fibre will be noted. On genuine in script line at top of note in the word "deposited" the "i" is distinctly dotted, in counterfeit it is not.

☞ *While we speak of the color of the yellow (gold) ink on the gold certificates, being off color, etc., it is a fact that the Government so far has been unable to procure an ink that will stand climatic changes, etc.*

Counterfeits of Interest-Bearing Notes and Bonds

$10 Compound Interest Treasury Note. Letter C. Act of June 30, 1864—October 15th, 1864. Signed S. B. Colby, Register, and F. E. Spinner, Treasurer. Number 198380. Photograph of the brownish color of old fading photographic work. Figure of woman. Vignette of Chase.

$50 Compound Interest Treasury Note. Series 1864. Letter C. Date July 15, 1864. Act June 30, 1864. Signed L. E. Chittenden, Register, and F. E. Spinner, Treasurer. The portrait and vignette of Hamilton a poor quality of work, and the numbers also are poorly done. Plates captured in July, 1866.

$50 Compound Interest Treasury Note. Check-letter D. Date, December, 1864. Act June 30, 1864. Signed S. B. Colby, Register, and F. E. Spinner, Treasurer. A poor counterfeit. Portrait of Hamilton.

$50 Compound Interest Treasury Note. Series 1865. Letter D. Date May 15, 1865. Act June 30, 1864. Plates captured July, 1866.

$50 Series 1865. Letter C. Date July 15, 1865. Act March 3, 1865. Signed S. B. Colby, Register, and F. E. Spinner, Treasurer. Eagle vignette. Interest 7-30, and notes convertible after three years into 5-20 bonds. Plates captured in April, 1866.

$100 The words "Compound Interest Treasury Note" appear lengthwise of face of note and printed in big gold letters. The note is Series 1865; check-letter B; date May 15, 1865; act June 30, 1864; payable three years from date; and signed S. B. Colby, Register, and F. E. Spinner, Treasurer. The portrait of Washington and the vignette on the left end of note are both good work, the counterfeit plate having been engraved by Charles H. Smith, as he confessed, while the back of note is a genuine impression or from an electrotype plate taken from a stolen impression of the genuine plate. The red numbers, however, are off color, and the figures uneven; and the large "U" in "United States" quite touches the outside line of the medallion in the upper left corner of the face of note; and the last "S" in "States" is distant not 1-16 of an inch from the outside line of the right corner medallion, while in genuine it is about 1-8 of an inch.

$1000 United States Coupon Bonds. Series of 1861. Acts of July 17, 1861, and August 5, 1861. Mature June 30, 1881 (Sixes of 1881). Portrait of Chase. Exceedingly dangerous counterfeits. Those seen bear only coupons maturing January 1, 1881. On counterfeit, in the $1000 counter, on nine sections, on each side of portrait of Chase, in the section to the left of the lower half of "1" in "1000," the letter "S" in "State" is entire, while on genuine only the upper half of the "S" is seen. The hair line around portrait on counterfeit shows a break of 1-16 of an inch, but the genuine does not, it is to the right of letter "S" in "Register's." Counterfeit differs from genuine in the mitering of the four corners of the green border. In title "United States of America" in the ruled shade on left side of bottom spur of letter "U" on counterfeit are seven very short lines forming very slight shade under that part of the letter—on genuine are ten lines, each about 1-16 of an inch long and forming a shade of same width as that at the bottom of the letter. Engraved signature at lower right hand of counterfeit and printed in grayish colored ink, is traced over with pen and ink—signature on genuine is written.

$1000 7-30 Bonds. Letter B. Dated June 15, 1865. Act of March 3, 1865. Signed S. B. Coby, Register, and F. E. Spinner, Treasurer. Very dangerous counterfeits. Bonds matured and interest ceased. The Treasury Department redeemed many of them from Jay Cooke & Co. before the bonds were discovered to be counterfeit. The Department redeemed $90,000 of the bogus bonds. Charles H. Smith stated that he engraved the plates.

$1000 5-20 Coupon Bonds of 1862. Consols of 1867. Fourth series; act February 25, 1862; date May 1, 1862. One of the best specimens of counterfeit work that was ever made. It is believed that no printing was ever done from the plates. They were not quite completed when captured on November 21, 1867.

The Different Methods of Counterfeiting Coin

Coins of all kinds and denominations have been counterfeited. The most dangerous counterfeits are those struck from a die, and are usually imitations of gold coins. Molds of various kinds are extensively used in counterfeiting, but counterfeits so made are much inferior to those made with a die. They have a fine appearance, lettering and milling being sharp and clear, and the ring usually good, in some instances almost perfect fac similes of genuine. They are usually a trifle short weight, however, and the edges or reeding not so sharp and clear as in genuine. Many of these coins are full weight. In counterfeits made from a mold, lettering, milling and reeding are usually poor, weight very defective, the coins lack the sharp and clear-cut appearance of genuine coin. Most counterfeit silver coins in circulation are made from molds, as it is an inexpensive form of counterfeiting. Some fair specimens have been produced in this way, but usually they are much lighter than the genuine, and if of required weight, differ in diameter or thickness.

Various metals are used by counterfeiters, principally platinum, silver, copper, brass, antimony, aluminum, zinc, type metal, lead and their numerous compositions.

Among the most dangerous counterfeits of cold coin are those of a composition of gold, silver and copper. They are a low grade gold, and the acid test shows they lack the fineness of standard gold used by the U. S. mint, which is 900 fine, or 21.19 carats. These counterfeits average from 400 to 800 finc. Platinum counterfeits are dangerous, as the metal used gives required weight, and they are heavily gold-plated. When they have been in circulation for a time the plating wears off, especially on the edges.

The most dangerous counterfeit of silver coin is made of a composition of antimony and lead, the former metal predominating. These counterfeits are of the dollar, have a fine appearance, are heavily silver-plated, with fair ring; some are only slightly below the standard weight. Some pieces among the smaller coins are made of brass, struck from a die, and when heavily plated are fair imitations. They lack required weight, except in a few instances. Counterfeits of type metal, lead and other compositions are much lighter than genuine, those having required weight are much too thick.

Genuine coins of all kinds, for the sake of gain, are tampered with in various ways. These operations are confined almost exclusively to gold coins, which are sweated, plugged and filled.

Sweatng is removing a portion of the gold from surface of coin. The process does not interfere with the ring, and as portion removed is generally slight, the coin is left with a very fair appearance, weight only being defective. The principal methods of sweating are the acid bath, filing the edges or reeding, the operator finding a profit in the small quantities of gold removed from numerous pieces. The average reduction in value of coins subjected to these processes is from 1-20 to 1-10.

Plugging is done by boring holes in the coin, extracting the gold, and filling cavity with a cheaper material. The larger coins—double eagles and eagles ($20 and $10 pieces)—are used for this purpose. Holes are bored into the coin from the edge or reeding, the gold extracted and cavity filled with a base metal. The small surface of the plugging material, where it shows on the edge of the coin, is covered with gold and reeding retouched with a file or machinc. The average loss in value to coins treated in this way is from one-eighth to one-sixth. Coins of this kind are very dangerous, as they are perfect in appearance, the edges only having been tampered with.

Filing is most commonly done by sawing the coin through from the edge or reeding, removing the interior portion, and replacing it with a cheap metal. Coins of all denominations, from quarter eagle to double eagle, are subjected to the process. When platinum is used to replace gold extracted, the coin has same weight as genuine. By this process coins lose four-fifths of their value, as the original surfaces are left only of paper thickness. When edges have been covered with gold and reeding restored, the coin has the appearance of being genuine, having correct size and weight, and a fair ring. Sometimes the covering of gold on edges is so thin that filling can be distinctly seen. When other and less costly filling than platinum is used, coins are of light weight and have a bad ring. If of correct weight they are too thick. Another method of filling is sawing the coin partly in two from edge or reeding on one side, leaving a thin and thick portion. The thin side of the coin is turned back and the gold extracted from centre of thicker portion. The cavity is filled with base metal and sides pressed back into original position and soldered or brazed together. It is difficult to give average loss to coins treated in this manner, as hardly any two seen have same amount of gold taken from them.

For detecting counterfeit coin, compare impress, size, weight, ring and general appearance with genuine coin of same period and coinage. The three tests of *weight, diameter and thickness should be applied, for it is almost impossible for the counterfeiter to comply with these three tests without using genuine metal.* Following we give a complete list and a thorough description of the most dangerous counterfeits known to be in existence, with means of their detection.

Counterfeit Gold Coin

DOUBLE EAGLE—$20.

Authorized to be coined by Act of March 3, 1849. Weight of genuine Double Eagle is 516 grains, is 900 fine, and 21.19 carats.

1850.—Weighs 360 grains, fineness gold, 571; silver, 85; copper, 344, and 13.22 carats, value $8.83. Lighter in appearance, and thicker than genuine. Reeding and milling defective.

1851.—Weighs 473 grains, or 43 grains light. Color is bad; reeding and milling defective. Portrait of head of Liberty smaller than genuine. Bears no mint mark. Is struck from a die.

1878.—Fair counterfeit, made of type metal, gold plated. Weight 372 grains, being 144 grains light.

1880.—Composed of type metal, gold plated, and exceedingly light, weighing about 296 grains—220 grains light. Ring defective. Reeding and milling poorly done.

1884.—Has a fair appearance; mint mark S. Color not good; diameter larger than genuine. Milling and reeding fair. Several grains lighter than genuine.

EAGLE—$10.

Authorized to be coined by Act of April 2, 1792. Weight of genuine Eagle is 258 grains, 900 fine, and 21.19 carats.

1841.—Weighs 236 grains, has O mint mark, and is 22 grains light. Coins struck from this die have fine appearance, main defects in reeding and milling.

1847.—Weighs 252 grains, has O mint mark, exceedingly dangerous, only 6 grains lighter and trifle thicker than genuine; reeding and milling slightly defective.

1849.—Weighs 228 grains, being 30 grains light, composed of gold, silver and copper. Has fair appearance, but is trifle thicker than genuine.

1852.—Composed of gold, copper and brass, weighs 181½ grains, or 76½ grains light. Ring is bad. Reeding and milling defective.

1855.—Composed of platinum; weighs 265 grains, or 7 grains heavier than genuine; has a fine appearance. Ring defective, diameter trifle greater than genuine. As these coins are gilded, or gold plated, slight wear removes plating from edges, and exposes platinum, or white metal underneath. Other coins of this date have been seen, weighing more than above described coin.

1858.—Very dangerous. Composed of platinum, and heavily gold plated. Milling and reeding fairly executed. Diameter, thickness and weight same as genuine. When coin is worn platinum shows distinctly on edges. Ring excellent.

1861.—New counterfeit composed of aluminum, heavily gold plated, weighs 154 grains, or 104 grains light; readily detected by general appearance and extreme lightness.

1865.—Dangerous. New Orleans mint letter O. Gold fineness is 494; weight .44 of an ounce, giving value 4.49. Contains small proportion of silver, alloy being entirely copper. Mint at New Orleans not opened at that date.

1871.—New counterfeit, weighs 186 grains, or 72 grains light, imperfect ring. Milling and reeding poor. Point of arrow in left claw of eagle touches letter "A" in "America," and olive branch touches letter "U" in word "United." Mint letter S touches right claw of eagle.

1875. 1879. 1880. These counterfeits composed of aluminum, heavily gold plated; weigh 145 grains, or 113 grains light. They bear the S mint mark, have good appearance, but are easily detected owing to light weight.

1881. 1883. 1891. 1893. 1899. Composed of gold, copper and brass. Made in a mold. Impression exceedingly poor, particularly of reverse. Weighs 197 grains, or 61 grains light. The reeding and milling very defective.

1882.—Dangerous counterfeit. Composed of gold, silver and brass. Struck from a die. Weighs 192 grains, or 66 grains light. Value about $3.60. Reeding, milling and ring very good.

1882.—Made in a mold of base metal and plated.

1891. 1893. 1895. Composed of brass and heavily gold plated. Weighs 134½ grains, or 123½ grains light. Obverse finely struck. Reeding and milling well executed. Ring good.

1904.—Good counterfeit. Light weight. Off color.

HALF EAGLE—$5.

Authorized to be coined by Act of April 2, 1792. Weight of genuine Half Eagle 129 grains, 900 fine, 21.19 carats.

1800.—Of old coinage, poor, weighs but 81 grains; genuine of this date weighs 135 grains.

1803.—Same description as the above, weighs but 83 grains, being 52 grains light.

1821.—Larger in diameter, and thicker than genuine. Head of Liberty chin very long; letter "U" in "United States" reversed. 8 grains light, value about one-half.

1838.—Excellent; weight, 125 grains; fineness, 547; trifle thicker than genuine; milling and reeding imperfect; value, $2.70.

1837. }
1839. } These counterfeits are made in a mold, and are mainly composed of brass and
1843. } copper. Obverse and reverse extremely poor. Weight is from 75 to 95 grains,
1844. } easily detected.

1844.—Very dangerous, made of platinum, heavily gold plated; diameter, thickness and weight same as genuine. Ring excellent. When worn platinum shows through plating, especially on edges.

1844.—Very dangerous. Assay gave following results: One-tenth grain light; specific gravity, 15.9; thickness, about like genuine; fineness gold, 805½; silver, 23; value gold, $4.47, say, $4.50; resists acid tests almost as well as genuine; reeding faulty, but very fair; color very good, a trifle yellowish.

1845.—Good; weighs 113 grains, composed of gold, brass and copper. Specific gravity, 12.80; should be 17.20. Valued, upon being assayed at mint, at $3.30.

1845.—Dangerous; 780 fine, trifle off color, little thicker than genuine. Composed of gold and brass. Upon being assayed value proved to be $4.25.

1847. } Very dangerous; exact size and weight of genuine. Composed of platinum,
1848. } heavily gold plated. Ring, milling and reeding slightly imperfect.

1851.—Weighs 125 grains, 4 grains light. Composed of gold, silver and copper; thicker than genuine; reeding and milling defective.

1853.—Weighs 121 grains, specific gravity 14, fineness 630. Has brassy appearance, reeding and milling imperfect. Assay value, $3.28.

1855.—Weighs 122 grains, 7 grains light. Imperfect ring; thicker than the genuine.

1855.—In all respects similar to preceding, except it weighs 131 grains.

1856.—Dangerous; weight and thickness almost identical with genuine; diameter trifle greater. Milling and reeding defective.

1857.—Is 450 fine, trifle thicker than genuine; same appearance as coins of 1851, 1855 and 1858. Assay value, $3.28.

1858.—Weighs 115 grains, 14 grains light. Supposed to have been struck from same die as two preceding ones, 1851 and 1855, dates having been changed. Excellent appearance, very good counterfeit, but trifle thicker than genuine.

1860.—Excellent; S mint mark; weighs 125 grains; 790 fine; has coppery appearance; reeding very good; milling defective; value, $4.30.

1861.—Cast in a mold; made in imitation of coinage of Philadelphia mint. Plating thin, weight light, but a well cast piece.

1862. } These are dangerous counterfeits; weight and thickness same as genuine. Coin
1869. } struck from a die; general appearance excellent. Composed of platinum, heavily gold plated; diameter trifle greater than genuine. When plating is worn, platinum shows distinctly on edges.

1872.—Dangerous; diameter larger than genuine; 850 fine, trifle off color; ring defective, reeding imperfect. Value, $4.43.

1875. } Weighs 122 grains, 7 grains light; composed of gold, silver and copper; fineness,
1877. } 600. Good appearance; diameter a little larger than genuine; trifle thicker.

1880.—Mainly copper, gold plated; good appearance; thicker than genuine; too light. Yields promptly to acid test.

1881.—Weighs 75 grains; made in a mold. Poor, not likely to deceive.

1881. } One of most dangerous counterfeits of this denomination known to be in exist-
1882. } ence. Assay of U. S. Mint shows: Fineness in gold, 798; silver, 38; copper, 153; platinum, 11; value, $4.48. Specific gravity, 16; should be 17.20. Weight, 128 7-10 grains, about 3-10 of a grain light, which, allowing for abrasion, was within limits of genuine coin. Stained slightly with acid, thicker than genuine. Evidently struck from die prepared from a drop process, most dangerous of all processes in hands of counterfeiters.

1882.—Made in a mold of base metal and plated.

1885. } Imitation of coinage of Philadelphia mint. Said to have been struck in a die;
1886. } good appearance, but light weight.

1886.—Fair, very light, weighing about 75 grains; bears S mint mark.

1896.—Fair, made in a mold. Weight about 59 grains. Words "In God we Trust" indistinct.

1898.—Fair, made in a mold. Weight about 75 grains.

1899.—Good. Weighs 74½ grains. Made of Babbitt metal, gold plated.

1900.—Weighs 76 grains. Made in a mold. Not likely to deceive.

THREE-DOLLAR PIECE—$3.

Authorized to be coined, Act of February 21, 1853. Weight, 77.4 grains; fineness, 900. Deviation in weight allowed in coinage, .25 of a grain. Deviation in fineness allowed in assay, .001; lowest, .899; highest, .901. Coinage commenced, 1854. Coinage discontinued, Act of September 26, 1890. Total amount coined, $1.619,376.

COUNTERFEITS OF THE THREE-DOLLAR PIECE.

The coinage of three-dollar pieces has been, as may be noted, quite limited, yet this denomination of gold coin has been considerably counterfeited, the false coin being struck in a die from base metal, and so perfectly executed as to be dangerous. In color this counterfeit is a close imitation of standard gold, and a careful comparison of the general appearance and device of the false piece with that of the genuine coin is necessary to detect the difference between them. Genuine three-dollar pieces are sometimes swedged with fraudulent intent between plates of copper until of the diameter of the half eagle, when, the device and general appearance of the pieces being well preserved, they are placed in rolls among half eagles, and, unless detected, pass for five dollars.

QUARTER EAGLE—$2.50.

Authorized to be coined by Act of April 2, 1792, and coinage discontinued by Act of September 26, 1890. Weight of genuine Quarter Eagle, 64.5 grains; fineness, 900, and 21.19 carats.

1843.—Weighs 40 grains and is 24½ grains lighter than the genuine.
1843.—Weighs 43 grains and is 21½ grains light.
1844.—Weighs 41 grains and is 23½ grains light.
1846.—Weighs 48 grains and is 16½ grains light.
1849.—Weighs 45 grains and is 19½ grains light.
1851.—Dangerous, only about 3 grains light.
1852.—Weighs 40 grains, being 24½ grains light.
1852.—Most dangerous counterfeit of this denomination discovered. Contains only 27 cents worth gold; weight and size correct. Cannot be detected by acid test.
1853.—A well-made counterfeit, mostly brass, and heavily gold plated.
1854.—Weighs 33 grains, being 31½ grains light.
1855.—Is 5 grains light.
1856.—Is 26 grains light.
1857.—Is 26 grains light.
1857.—Dangerous. Is exact weight of genuine, but trifle thicker and larger in diameter.
1858. } Composed of brass. Reeding and milling good. Trifle too thick. Lettering fair
1860. } on one side, poor on other.
1861.—Weighs 42 grains, and is 22½ grains light.

All above quarter eagles made in mold, composition mostly brass, and heavily plated. Reeding and milling poor, readily detected by light weight.

1862.—Composed of platinum; weighs 64 grains, exceedingly dangerous. Heavily gold plated, detected only by observing edge of coin, when plating is worn, shows platinum underneath.

DOLLARS—LARGE AND SMALL.

Authorized to be coined by Act of March 3, 1849. Weight of genuine Dollar is 25.8 grains, fineness 900, and 21.19 carats.

SOUVENIR GOLD DOLLAR.

Authorized by Act of June 28, 1902. Weight, 25.8 grains; fineness, 9.00. These two gold dollars—one Jefferson head and one McKinley head—sold for $3 each, and were coined for the Louisiana Purchase Exposition or World's Fair, held at St. Louis, Mo., in 1904. Amount coined in 1902, $75,080; in 1903, $175,178. Total coinage, $250,258.

Authorized by act of April 13, 1904. Weight, 25.8 grains; fineness, 900. These gold dollars sold for $2 each, and were coined for the Lewis and Clark Exposition, held at Portland, Ore. Amount coined in 1904, $25,028; in 1905, $35,041. Total coinage, $60,069.

Counterfeit Silver Coin

STANDARD DOLLARS.

Authorized to be coined by Act of April 2, 1792. Weight of standard silver dollar, 412½ grains, 900 fine, first coined in 1794. Number of old dollars were counterfeited, composition generally being of German silver and brass, and heavily plated; milling and reeding poor.

Bland or standard silver dollar first coined in 1878; fineness, 900; weight in grains, 412½. All dates of this coin extensively counterfeited; composition generally used being lead, pewter, type metal and iron. Made in a mold, and over 100 grains lighter than genuine; readily detected owing to slippery feeling.

A number of very dangerous counterfeits of this coin have been seen recently, which were nearly full weight, averaging from 380 to 410 grains. Composed of antimony and lead, former metal predominating, heavily silver plated. Made in mold, fine general appearance, almost perfect imitation of genuine. The dates of this coin range from 1878 to present time. When coin becomes worn by use, base metal shows beneath plating. Ring trifle imperfect. We warn our patrons against this dangerous counterfeit.

HALF DOLLARS.

Authorized to be coined by Act of April 2, 1792. Weight of genuine half dollar of present issue, 192.9 grains; fineness, 900. Weight prior to 1837 was 208 grains; from 1837 to 1853, 206.25 grains; legal tender for ten dollars. Old issues were extensively counterfeited; composition generally used was German silver and brass, heavily plated, had fair appearance. Of the late issue the country has been flooded with counterfeits of various dates. The most dangerous of these have following dates: 1841, 1842, 1843, 1845, 1849, 1857, 1860, 1861, 1871, 1872, 1875, 1876, 1877, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900. These coins are struck from dies, and made from molds. Metals used are brass, lead, pewter and type metal. Most of these coins are lighter than genuine, and have sharp keen ring, as if containing glass; 1841, 1842, 1872, 1876, 1877 are nearly full weight and size, the last mentioned being a trifle thicker than genuine, and composed largely of brass. Have a very fine appearance, but can be readily detected by milling and reeding, and defective lettering of word "Liberty" on shield of Goddess of Liberty.

In counterfeits of 1894, 1895, 1896, 1897 and 1899, weight, ring and color are equal to genuine, being made of silver. On back shield on breast of eagle imperfect, also words "E Pluribus Unum," letters being irregular, some very indistinct.

The counterfeit of 1898 has the weight, diameter and thickness of genuine coin. Last syllable in "Pluribus" and final "m" in "Unum" on reverse of coin imperfect. Two dies have been used in stamping the reverse side of these coins, which is proven by examining the position of the stars. On some the star touches the last letter "S" in the word "States," while on others it is some distance from it. On the obverse of coin there appears a dot on the top end of the "1" in date "1898," and the nose of figure has flat appearance. Also the figures in "1898" irregular in one die.

QUARTER DOLLARS.

Authorized to be coined by Act of April 2, 1792. Weight of genuine quarter dollar of present issue is 96.45 grains; fineness 900. Prior to 1837 was 104 grains; from 1837 to 1853, 103.125 grains; legal tender for ten dollars. This coin has been very extensively counterfeited of various dates, the most dangerous of which are 1853, 1854, 1855, 1857, 1858, 1860, 1861, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900. Metals generally used, brass, tin, pewter and lead. Made in mold, well plated, calculated to deceive. Reeding and milling usually poor; obverse and reverse not perfect. Counterfeits of this denomination of later date are very inferior, having greasy and slippery feeling, easily detected by any person accustomed to handling money. The counterfeits of 1895 and 1898 have the weight, diameter, thickness and ring of the genuine coin, being made of silver. The most noticeable defect is the words "In God We Trust," on obverse of coin, which on the counterfeit touches the milling of the coin, while on the genuine it does not. On the reverse the "Q" and "R" in "Quarter" are imperfect, and the stars over the eagle are imperfect. The reeding on the outer edge of coin is very well done on these counterfeits.

TWENTY CENTS.

Authorized to be coined by Act of March 3, 1875. Coinage discontinued by Act of May 2, 1878. Weight of genuine twenty-cent piece, 77.16; fineness, 900; legal tender for five dollars. Few counterfeits in circulation; very poor and easily detected.

DIMES.

Authorized to be coined by Act of April 2, 1792. Weight of genuine dime, 38.58 grains; fineness, 900. Weight prior to 1837, 41.7 grains; from 1837 to 1854, 41.25 grains.

Legal tender for ten dollars. Counterfeits very numerous. Metals used, brass, pewter and lead. General appearance very poor.

HALF DIMES.

Authorized to be coined by Act of April 2, 1792. Weight of genuine half dime, 19.29 grains; fineness, 900; weight prior to 1837, 20.8 grains; from 1837 to 1853, 20.625 grains; legal tender for five dollars. A few counterfeits of these old dates, exceedingly poor and readily detected.

THREE CENTS.

Authorized to be coined by Act of March 3, 1851. Coinage discontinued by Act of February 12, 1873. Weight of genuine three-cent piece, 11.52 grains; fineness, 900. Legal tender for five dollars. A number of counterfeits of this coin have been seen, fair imitation of genuine, well plated, calculated to deceive.

Silver coins of smaller denominations than $1, if not mutilated, so as to be unfit for circulation, may be presented in sums of $20 or any multiple thereof, to the Treasurer, or any Assistant Treasurer of the United States for redemption in lawful money.

Refuse mutilated Silver and Minor Coins, as there is no provision for their redemption.

FIVE CENTS—NICKEL.

Authorized to be coined by Act of May 16, 1866. This coin has been extensively counterfeited, particularly date of 1875, dangerous counterfeit. Struck from a die, and made of same metal as used by mint. Lettering in words "United States" imperfect, also stars surrounding figure "5." Other counterfeits are very poor, composed of lead and pewter, and made in mold.

THREE CENTS—NICKEL.

Numerous counterfeits of this coin circulated. Made in mold, very poor, easily detected.

CENT—COPPER-NICKEL AND BRONZE.

These coins have been counterfeited to small extent, principally to fill cabinets of numismatics, particularly old dates. Good counterfeits of 1884, 1888, 1892, 1896 and 1897 in circulation. Genuine cent is 90 per cent. copper and 10 per cent. zinc and tin, while counterfeit is all copper, hence darker bronze than genuine.

The following is a test for determining whether a coin is good or bad. Use liquids as near edge of suspected coin as possible, as that is part most worn. A drop of preparation will have no effect on genuine coin, while it can be plainly seen on the counterfeit. Heavily plated coins should be scraped slightly before using.

CANADIAN CURRENCY

The system of paper money of Canada is similar to that of the United States, consisting of Dominion of Canada notes, which now amount to $48,000,000, while the note circulation of the different banks amount to about $62,000,000, the whole volume being subject to contraction or expansion, as circumstances may warrant.

Province of Canada—Bills: $1, $2, $5, $10, $20, $50, $100, $500, $1,000—recalled from circulation.

Dominion of Canada—Scrip, 25 cents. Bills: $1, $2, $4, $50, $100, $500, $1,000, $5,000.

Dominion of Canada—$5.00, $10.00, $20.00—retiring.

Some issues of "Dominion of Canada" Bills are printed on the back "Payable at Toronto, Montreal, St. John, Halifax, Winnipeg, Charlottetown, or Victoria," but later issues have engraved, through the center of the green or brown printed design on the back, the words "Dominion of Canada," and are redeemed by any of the Assistant Receivers-General throughout the Dominion.

Newfoundland is not in the Dominion of Canada, but all other Bills of Banks in the Dominion are now received at par in all portions of the Dominion, but subject to a discount by Brokers in the United States, the highest rates prevailing in the winter months and at points most distant from place of issue or redemption.

The National Counterfeit Detector gives this list of Parent Banks in business in the Dominion of Canada for the protection of all its subscribers from doubtful, broken and worthless institutions, which previously existed in the Provinces, their bills being still in circulation and used by dishonest persons. These parent banks have branches in other sections of Canada, and bills of smaller denominations than fives were formerly issued.

Counterfeit Canadian Bills

ONES

DOMINION OF CANADA.

1. Portrait of Jacques Cartier, old issue, dated Ottawa, July 1, 1870. Check Letter D. Red numbers. "Payable at Toronto" on the back. Upper left end of note not good; a white streak extends from the ear to the chin on side of face which is not found in the genuine. Lathe work around the 1, on right of note, is irregular; lines cannot be traced. There are three issues of these counterfeit bills, the difference being principally in the size of the red figures.

1. Portrait of Lady Dufferin. Letter A. "Payable at Montreal." Dated 1st June, 1878. A very poor counterfeit on very soft paper and some numbers in *green*. Another issue of the counterfeit is on stiff white paper. No part of the note will bear close inspection. Portrait and all lathe-work very coarse work.

1. Lady Dufferin portrait. Letter A or C. "Payable at Montreal." Date, 1st June, 1878. Another large lot of similar counterfeits to the last above appeared in May, 1899. Paper like the softest kid. The genuine portrait has her right shoulder shaded or dark, but her left shoulder is very light. The counterfeit has both shoulders equally shaded and very dark. The letters C and A are found to be confusing. The A (in black ink) is just under, and the C (in black ink also) is just ahead of, the blue number.

1. Portraits—Aberdeen and wife. Series A. Letters A, B. Dated Ottawa, March 31, 1898. Engraving poor. Lathe-work, shading lines about Ottawa and date, and other fine work, very bad. "For Minister of Finance" omitted.

1. Aberdeen Issue. Series B. Letter C. Dated Ottawa, March 31, 1898. Light brown ink design about bottom face of note. Photo-mechanical process counterfeit on good paper, and all colors good. Quality of engraved work poor, it is dark, coarse, and blotchy; especially in log-rolling scene and in lathe-work around large counters "1." Word "Series" hardly legible. Some fine shading lines are solid black. Back better work than face, green ink too light.

BANK OF BRITISH NORTH AMERICA, St. John, N. B.

1. Lithograph, old. "New Brunswick" across end of bill.

BANK OF MONTREAL, Montreal, P. Q.

1. Old counterfeit. Right upper corner, 1 on ships under full sail. Left upper corner, two Indians and shield.

BANK OF TORONTO, Toronto, Ont.

1. Vignette: Lumberman, axe and log.

UNION BANK OF PRINCE EDWARD ISLAND, Charlottetown, P .E. I.

1. Dated 1st January, 1872. Photograph poorly done. No. 30252. Green letters in ONE and red letters in "Canada Currency," badly printed or painted.

None of the above banks now issue $1 bills.

TWOS

DOMINION OF CANADA.

2. Portrait of Lord Dufferin. Check Letter B. Blue numbers. "Payable at Montreal." Dated June 1st, 1878. Very dangerous counterfeit and both the face and back of note is good. Portrait of Lord Dufferin, a good imitation of that on the genuine note, though the forehead appears a little too broad or full. Paper fair, but a little harsh and yellowish. Color of blue numbers as good as genuine. On the face of bill the lathe-work in the large green figures 2 is poor, and in the lower half of each of these figures 2 there are on the genuine bill four upright zigzag lines, formed by the peculiar shape or joining of the fine lathe-work lines; but on the counterfeit notes these four engraved zigzag lines are very prominent, and the two centre ones do not touch one another as on the genuine bill. In the imprint "British American Bank Note Co., Montreal," the dots over the "i's" are omitted. The final e in the word Finance in the small print "For Minister of Finance" is a little larger than the other letters.

TWOS—Continued

2. Dufferin Issue. Letter C. Red numbers. Payable at Toronto. Dated June 1st 1878, which date in some cases has been changed. *Some defects in zigzag lines as mentioned in above paragraph.* A dangerous counterfeit, excepting the poor centre vignette of Lord Dufferin, and the imitation lathe-work in the large green 2's. Most all the other work on the bill is about as good as some genuine. When the vignette of Lord Dufferin is worn this note is very dangerous. Paper fair, but in some cases very good. The color of red numbers on some of these notes is very bad and on others quite fair.

2. Lansdowne Issue. Letter B. Dated Ottawa, July 2d, 1887. This counterfeit has a blurred and indistinct appearance, and the green design in the centre is off color. The figures used in the numbers are only half the size of genuine and printed in purple ink. Under the title "DOMINION OF CANADA" the words, *"Will pay,"* are very poorly engraved. To the left and under the word "Ottawa" (in the date line) the printed word *"Countersigned"* over the signature is omitted in the counterfeit. The words, *"For Minister of Finance,"* under the signature of J. M. Courtney, are also omitted.

2. Portrait of King Edward. Letter A. Dated Ottawa, July 2d, 1897. Portrait, center vignette, and lathe work very poor quality of work; red numbers too light; lettering fair. Back of note poor. Paper fair.

2. Portrait of King Edward. Letter C. Dated Ottawa, July 2d, 1897. Counterfeit note appears as a photo-engraved one but poorly done, especially the colors. Lathe-work is all poor, especially around border and large counter "2" on right end face of note. The shading lines of "Dominion of Canada" are very heavy and poor, also the parallel ruling in the sky. Paper fair, and portrait fair. On back of note words "American Bank Note Company, Ottawa," poorly printed.

2. Portrait of King Edward. Letter D. Dated Ottawa, July 2d, 1897. A poor counterfeit. Portrait a poor likeness and of very coarse work, especially the shading lines on the face and forehead and in the background of portrait. All fine shading lines on note coarse, and lathe-work poor. Note has not as good work on it as on a previous issue of letter C, but has better colored black and chocolate inks. Paper rather thick.

BANK OF MONTREAL, Montreal, Quebec.

2. Vignette: View of Niagara Falls, railcars and bridge.
2. Ottawa Branch. Dated March 1, 1852. Coarse engraving. "Ottawa" in red.

BANK OF TORONTO, Toronto, Ont.

2. Vignette: Shield, Lion and Unicorn.

QUEBEC BANK, Quebec, P. Q.

2. Toronto, Ont., Branch. Old issue, dated 1860.

UNION BANK OF PRINCE EDWARD ISLAND, Charlottetown, P. E. I.

2. Plate A, dated 1st Jan'y, 1872, and numbered differently in blue or green ink. Photograph. Large letters in TWO in green or blue inks are badly printed or painted; also red letters in "Canada Currency."

2. Letter A. Dated March 1st, 1875. Coarse engraving, similar to an inferior wood cut. Fully one-quarter inch shorter than the genuine bills. "British American Bank Note Co., Montreal," omitted. The line "Dominion of Canada," over vignette-engraving of dog and safe, is without any shading.

None of the above banks now issue $2 bills.

FOURS

BANK OF BRITISH NORTH AMERICA.

4. St. John Branch, N. B. Old issue. Photograph and very pale. They are all supposed to be numbered 74981.

CITY BANK MONTREAL, Montreal, P. Q.

4. Not a good counterfeit. Paper poor; inks and lathe-work very defective. Bank not in existence.

DOMINION BANK, Toronto, Ont.

4. Old issue. Dated Feb. 1st, 1871. Letter B. There is a white line around the hair portion of Prince Arthur's head, which serves to separate it from the background. Cashier's signature, W. H. Holland, Jr., is engraved, while on the genuine bills it is written. Lathe-work very irregular.

FOURS—Continued

BANK OF UPPER CANADA, Toronto, Ont.

4. These notes are alterations from notes of the failed Bank of Western Canada, Clifton. The words "Western" and "Clifton" are erased, and the words "Upper" and "Toronto" substituted in their places. This is done by the means of acid, also by pasting.

THE BANK OF TORONTO, Toronto, Ont.

4. These notes are alterations from notes of the failed Colonial Bank of Toronto. The words "Colonial Bank of Canada" are erased and the words "Bank of Toronto" substituted in their place.

These are one dollar notes raised to four by pen and ink additions and changes. These notes are also recolored.

FIVES

BANK OF BRITISH NORTH AMERICA, Montreal, P. Q.

5. Quebec Branch. Very old issue. Dated 22nd Nov., 1871. Check Letter A. Photograph very pale. Very badly printed, especially the green ink. They are all supposed to be numbered 44490.

5. Kingston Branch. Old issue. Dated May 1, 1875. This counterfeit has had an extensive circulation. In the border of the genuine the lines of the shading on scrollwork are fine and clear; on the counterfeit the shading is omitted. Genuine notes of this issue are numbered from 30001 to 36000 inclusive; counterfeits bear other numbers than those on the genuine of this date. Lathe-work fair. Very few genuine notes of this date and issue are now in circulation.

5. Old issue. Letter D. Genuine notes are dated 3d July, 1877. On the counterfeit the date of the month is omitted. Imprint of British American Banknote Company, Montreal, upper left, in border of note, poorly engraved; the vignettes are badly done. On lower left end Britannia seated has her right hand resting upon a shield, the lower rim of which is well defined by a clear *white* line which does not appear on genuine bill.

Another counterfeit of this note has appeared, dated 5th July, 1877. In other respects it answers to the above description, and is evidently made from the same plate.

BANK OF MONTREAL, Montreal, Que.

5. Old issue. Dated 1858, Sept. 1, and bears in centre of note TWENTY-FIVE SHILLINGS CY., in a large panel; FIVE DOLLARS in lower left of note, in a small panel. The date of issue and numbers are printed in blue. In the upper right and upper left are two small vignettes. Quebec (spelled Quebeck) appears on this counterfeit in three places in blue ink. *There is also a counterfeit on the Ottawa branch, the only difference being the date of issue and numbers, also Ottawa, are printed in red.* Refuse all bills of this kind.

5. Old counterfeit. Vignette in upper right corner, steamer; left end, cattle.

5. Dated Jan. 2, 1895. Series C and D. Fair wood-cut productions, but quality of work will not bear close inspection. Lettering and numbering poor. Series C countersigned by N. McLean, Series D by J. A. Paddon.

5. A fair counterfeit, dated January 2, 1895. Portraits of Rt Hon. Lord Strathcona and Mount Royal, also E. C. Clouston, General Manager, not as likelike as genuine and poorly engraved. On counterfeit the "V" in centre of note, also panel lower face of note containing signatures, is a light brown; on the genuine they are pale green. Back of note poor. Paper fair quality.

BANK OF NOVA SCOTIA, Halifax, N. S.

5. Dated Halifax, July 5, 1877. Letter B. Very rough pen and brush work.

BANK OF TORONTO, Toronto, Ont.

5. Port Hope (Branch) Issue. Photograph. Letter E. Dated July 1st, 1880. Number 45831, and by changing the figure 1 to 4 some have number 45834. The color is a purple brown. The green FIVE across lower centre face of bill is painted over with a green water-color. The numbers are painted in red water-color, and letters in PORT HOPE painted in blue ink.

5. Petersborough (Branch) Photographs. Only a few of these notes were made; numbers on all 29356. Easily detected on account of their brownish tint.

FIVES—Continued

CANADIAN BANK OF COMMERCE, Toronto, Ont.

5. Old issue. Letter C. Dated May 1st, 1871. Signature of E. J. Smith, Cashier, is heavily printed, while on the genuine it is written. In the oval portrait in the centre, the Queen's face is turned more to the front than in the genuine. The engraving of the portrait is coarse.

DOMINION BANK, Toronto, Ont.

5. Dated 2d January, 1900. Letter B. Poor counterfeit, especially face of note. Lath-work badly broken. Paper fair.

5. Dated Toronto, 2d January, 1900. Poor wood-cut production, very crude.

5. Dated 2d Jan., 1900. Letter C. Photographic. Poor counterfeit.

LA BANQUE DU PEUPLE, Montreal.

5. A pen and ink counterfeit. Letter A. Portraits very poorly executed, and little resemble those on the genuine. Lathe-work surrounding the 5 very poor.

MARITIME BANK OF ST. JOHN, N. B.

5. Photograph. Letter B. A poor counterfeit. Produced by the photographic pen and ink process.

MOLSONS BANK, Montreal, Que.

5. Dated Montreal, 2d July, 1901. Check Letter A. Poor wood-cut production. Numbering, lathe-work and vignettes poor. Large green 5 and green V on each side of large 5 center of note are coarse and too dark in color. This note is numbered in blue 153716; signed Wm. Macpherson, President, and countersigned H. R. Jeffrey, pro General Manager.

5. Dated Montreal, July 2, 1901. Check Letter B. Numbered 214258; signed Wm. M. Macpherson, President, and Elliot, pro General Manager; also Jeffray, pro General Manager. Other counterfeits will likely appear bearing other signatures for pro General Manager.

A second issue, bearing Check Letter C, numbered 334417 in blue, which blurs when rubbed, has also appeared.

QUEBEC BANK, Quebec, P. Q.

5. Dated 2d July, 1901. Letter H. Blue numbers. Poor counterfeit. The work on face of note especially poor.

TRADERS BANK OF CANADA, Toronto, Ont.

5. Date July 2d, 1897. Letter D. Like a photographic production, dull gray in color. Numbers should be in blue; those seen are traced over in red ink.

5. Dated Toronto, 2d July, 1897. Check Letter D. Signed C. D. Warren, President, and W. G. Bryans, pro General Manager. Poor photo-mechanical counterfeit. Vignette portraits of President and General Manager coarse work, but fair likenesses. Vignette of farm-yard scene in centre scratchy and blurred. Lathe-work in counters very poor, also the blue numbers. The large green V near each end of note is too dark a green, and the fine work in body of V cannot be traced. Back of note poor; lathe-work all blurred and color of green too dark. Imprint of British-American Bank Note Co., Montreal, bottom on back, can hardly be deciphered.

UNION BANK OF PRINCE EDWARD ISLAND, Charlottetown, P. E. I.

5. Photograph poorly done. Plate A. Easily detected by faded appearance.

TENS

BANK OF BRITISH NORTH AMERICA, Montreal, P. Q.

10. Ottawa Branch, Ottawa, Ont. Photograph, and very poor. Numbered 16279; which is most probably the case with the whole of them.

BANK OF MONTREAL, Montreal, P. Q.

10. Dated January 2, 1882. Letter D. Very poor, looks like a cheap advertisement printed in bluish green ink. Face and back same design.

BANK OF TORONTO, Toronto, Ont.

10. Dated Toronto, 1st June, 1892. Letter D. General appearance good, yellow face and red numbers good, all colors very good, and paper good. On close inspection Coat of Arms in center of crude finish, lathe-work in counters flat and broken. Large letter of "Bank of Toronto" have no line work about them—only solid work. In lower center margin "American Bank Note Co., Ottawa," omitted. Back of note has no linework. Bill a very fine pen or pencil and brush work job, black ink and all colors can be removed by damp sponge.

TENS—Continued

CANADIAN BANK OF COMMERCE, Toronto, Ont.

10. Dated May 1st, 1871. Letter D. Very dangerous counterfeit. Signed Wm. McMaster, President, and W. Cooke, Cashier. The color of the blue numbers is a trifle lighter than those of the genuine. The vignette in centre coarser than in the genuine, particularly the head of the lion. In counterfeit the bases of the letter A in the word "dollars" are connected in one line, while in the genuine there is a distinct opening. The staff or perpendicular line of the letter P in word "President" in counterfeit extends below the line upon which the word "President" is written; in genuine it terminates directly on the line. There are five shaded lines under the words "Ten Dollars" in counterfeit, and only four in genuine. Shading of the title, Bank of Commerce, coarse and scratchy; lathe-work excellent, but slightly defective. Back of note, color of green ink lighter than on the genuine, and lathe-work defective. The paper is thinner than that of the genuine.

CITY BANK MONTREAL, Montreal, P. Q.

10. A poor counterfeit. On the counterfeit, the word "Parliament" is printed "Parliment," the "a" being omitted.

DOMINION BANK, Toronto, Ont.

10. Check Letters A and B. These counterfeits are photographic productions and are easily detected by the poor coloring and the omission of the fine lettering at the bottom of the note over which the signatures are written. The water-mark, "Dominion Bank," is very faint, and the green is almost a blue. The attempt to imitate the color tints on back of note is very crude.

10. Stolen. Date Jan. 2, 1888. Series A. Nos. 46,001 to 47,000. Stolen when uncountersigned and signatures forged, but bank will pay 20 per cent. for any part of the $10,000.

IMPERIAL BANK, Toronto, Ont.

10. Dated Toronto, Ont., March 1, 1875. Letter B. Poor counterfeit. Portraits and lathe-work in counters very poor. Back of note fair, but lathe-work poor. Paper smooth and stiff.

LA BANQUE NATIONALE, Quebec, P. Q.

10. Dated April 28, 1860. Check letter A. The counterfeit vignettes all coarsely done, as are the large 10's and the counters in both upper corners. The lettering is much better and deceptive. "P" in "President" is directly over "D" in "DIX" on genuine, bottom border of note. On the counterfeit the "P" is over the "IX."

MARITIME BANK, St. John's, N. B.

10. Dated Oct. 5, 1881. Check letter A. A photographic pen and ink counterfeit. The general appearance of this note is extremely poor and readily detected. Bank failed. Notes worthless.

MERCHANTS' BANK OF CANADA, Montreal, P. Q.

10. Photograph. Letter D. Number 83993. Capital $6,000,000. The green tint on the face and back of note is rubbed on over the purple photographic tints with an oil green crayon pencil, which gives the green a yellowish tone and the work a blurred appearance. Very few notes were printed.

MERCHANTS' BANK OF HALIFAX, Halifax, N. S.

10. Dated 1st January, 1874. Photograph and Lithograph combined. Purplish tint in the photographic part, the 10—TEN—10 being done in red and green ink by lithography, and badly blurred. The vignette of ship under sail is very coarsely done, while in the genuine it is very fine and distinct.

10. Old issue. Dated 1st January, 1874. A counterfeit of engraved and lithograph work, having a blurred and dark look. "Cash'r," "Pres't" and name of printers, "Blades, East & Blandes, London," are all omitted.

MOLSONS BANK, Montreal, Que.

10. Date, Jan. 2, 1900. Letter B. A very poor photographic note and not liable to deceive. It has a blurred appearance and is on heavy paper.

ONTARIO BANK, Toronto, Ont.

10. Letter A. Dated Bowmanville, Nov. 1st, 1870. The foliage in the engraving of the woodsman chopping down the tree is indistinctly worked up, being rather blurred in its details. There are two issues of these counterfeits on some of which the imprint of the "British-American Bank Note Company, Montreal and Ottawa," does not appear.

10. Check letter A. A very poor photograph. No description necessary

TENS—Continued

PEOPLE'S BANK OF NEW BRUNSWICK, Fredericton, N. B.

10. Photograph poorly done. Plate A. Detected by its faded appearance.

QUEBEC BANK, Quebec, P. Q.

10. Date Jan. 3, 1898. Letter C. Signed John Breakey, Pres.; countersigned V. F. Convey. A photographic counterfeit. Centre face of note vignette "City of Quebec" badly blurred, but by careful printing might be improved. Figures in number of note in red are slightly thicker and longer than those on the genuine. Back of note nearly black instead of blue. Lathe work and paper fair.

10 raised from **1.** Government issue. Vignette—Lady Dufferin. Note scraped with a knife and the alterations of the figures and large characters are done with pen and ink, the border and other parts of note made indistinct by ink lines scattered over. There are no genuine $10 Dominion notes.

10 raised from **5.** Many raised bills have been found in circulation. The altered parts are done by the "bugging" process, which shows very plainly upon holding the bill up to the light.

TWENTIES

EASTERN TOWNSHIPS BANKS, Sherbrooke, P. Q.

20. Date, Jan. 2, 1903. Very dull, faded color; but few issued.

SILVER COUNTERFEITS

The 20, 25 and 50 cent Canada silver pieces have been extensively counterfeited.

ENGLISH BANK NOTES AND COINS

£5 English Bank Notes, dated London, 1862, and Sept. 13, 1901.
£5 Bank of England Note, dated January 4, 1898. Photographic pen and ink.
£10 Bank of England Notes, dated Sept. 21, 1901.
£20 Bank of England Notes, dated Birmingham, May 20, 1890, marked with blue stamp, "London and County Banking Co., Limited, Stratford."
£20 Bank of England Note, dated May 20, 1893. Pen and ink production.
£20 Bank of England Note, dated January 15, 1896. The notes present a gray, dirty and greasy appearance, which has evidently been caused by inserting the water mark by an oily process. The cipher number of these bills is M—8, the consecutive numbers differing.
£50 English Bank Notes, dated London, May 16, 1883, marked with blue stamp, "London and County Banking Co., Limited, Brompton, 26—o."
£50 Bank of England Note, dated London, May 16, 1883, stamped in *red* letters across lower part of note, "Channel Island Bank, Limited, Jersey."
£50 Bank of England Notes, dated March 6, 1901.
£100 English Bank Notes, dated London, August 16, 1883.
£500 English Bank Notes, dated London, August 16, 1883.
£5 and £10 Provincial Bank of Ireland, each dated November 10, 1880.
The paper of these counterfeits is thicker and darker than that of the genuine.

ENGLISH SOVEREIGN.—A dangerous counterfeit; weight of genuine coin, 123.27 grains; fineness, 916 2-3. Weight and thickness same as genuine. Composed of platinum, heavily gold-plated. As coins become worn, platinum can be observed distinctly. General appearance good, and liable to deceive. The dates are 1862, 1863 and 1872.

ENGLISH HALF-SOVEREIGN, composed of the same metal as the sovereign above reported, is in circulation.

STOLEN BANK OF ENGLAND NOTES

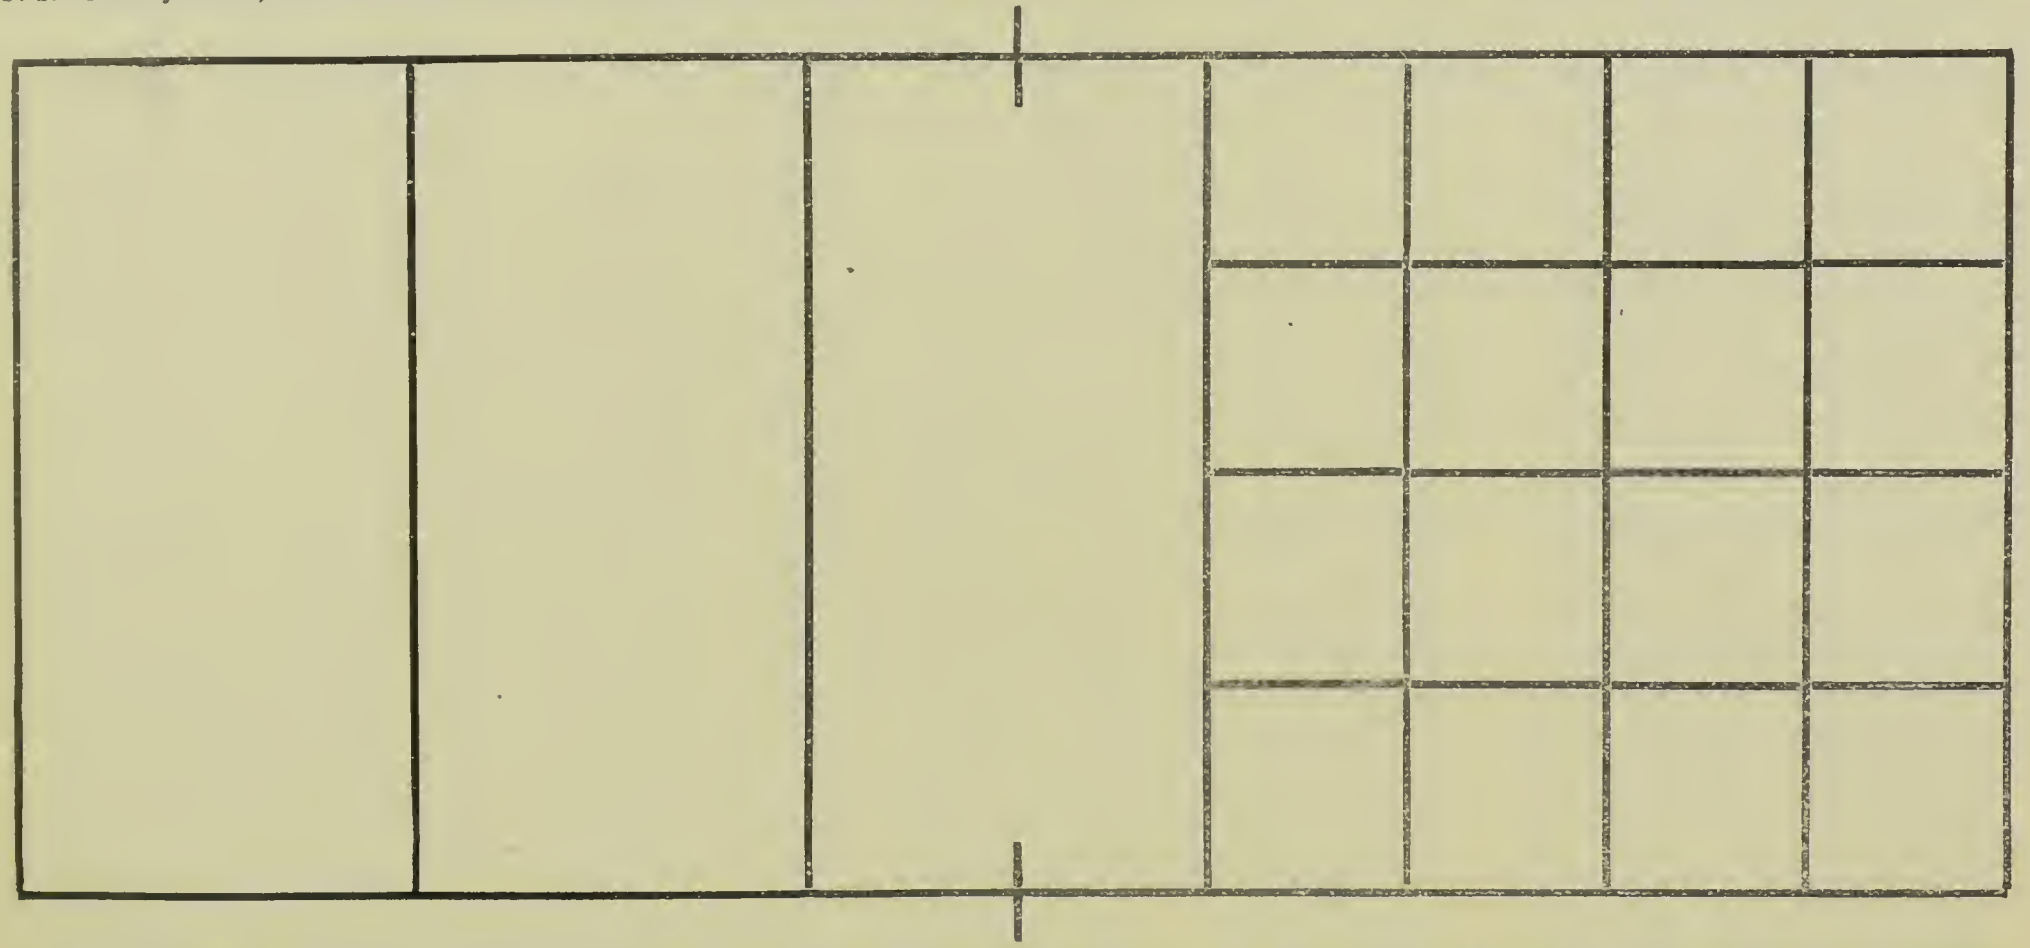
Fac-Simile of Discount Glass Used at the National Bank Redemption Agency for Discounting National Bank Notes, and by the U. S. Treasurer for Discounting U. S. Notes, Gold and Silver Certificates.

U. S. Treasury Notes, also Gold and Silver Certificates, are about ¼ inch longer than National Bank Notes. A calculation, however, can be made from this Scale.



All Notes equalling or exceeding three-fifths of their original proportions, and bearing the name of the bank and the signature of one of its officers, are redeemable at their face value. Mutilated, U. S. Notes, Gold Certificates and Silver Certificates are redeemable at their face value by the U. S. Treasurer and Assistant Treasurers, when not more than two-fifths of the note is missing. When mutilated so that less than three-fifths, but clearly more than two-fifths, of the original proportions remain, are redeemable by the Treasurer only, at one-half the face value of the whole note or certificate: unless when accompanied by an affidavit that the missing portions are totally destroyed, and then all fragments are redeemable at full face value.
